

Greater Manchester Police

Operating in a changing environment

Our Purpose

Protecting society and helping to keep people safe

The rich picture of future policing across GM

Our Commitment

Our Commitments guide everything we do. We must all demonstrate how we are achieving them; both individually and as part of the teams we work in.

- We work with others to solve problems in our communities
- We are accountable for our actions and decisions, we take responsibility and do the best for the public
- We demonstrate respect and fairness to the public and our colleagues
- We take pride in what we do and we are committed to building a better GMP for our communities

Case for change

Achieve better outcomes for everyone in GM

- On average, life chances for people in Greater Manchester remain below national levels
- We must improve outcomes across GM; health, employment, wellbeing

Changing nature of vulnerability and crime

- Changing nature of vulnerability and crime (e.g. radicalisation, cyber related)
- Increased risks posed to citizens and communities (e.g. sex offending, modern slavery, mental health)

Single Agency response is not working

- Recognition that a single agency reactive response does not reduce crime
- There is a clear need to work differently with partners and the community

Budgetary constraints

- Budget deficit, continued financial pressures and uncertainty
- Shrinking workforce and increasing pressures on front line staff

Our Strategy

Achieve better outcomes through place based working

- Getting closer to our communities, developing shared solutions together using an asset based approach
- Working as one team with partners at a place level, sharing information and being collectively responsible for outcomes in that area 24/7
- Taking a problem solving approach to get to the root cause of issues in communities, improve lives and ultimately reduce demand

Prioritise activity according to threat, harm and risk

- Investing in proactive policing
- Risk profiling with partners to problem solve the most serious threats to our communities
- Having a clear structure and framework to drive what we do and the decisions we make
- Shared understanding with partners and communities of how we will attend and investigate incidents

Build a binding relationship with the people of Greater Manchester

- A binding relationship that defines what we do and what role the public **can** play in building strong, self-sustaining communities - policing alone will not tackle our biggest problems
- Keeping the public at the heart of what we do, listening and sharing to create a collective responsibility, reduce avoidable demand and allows GMP to maintain its emergency response

Develop and support our workforce to change the way we work

- Managing the performance of our people in a fair and consistent way
- Improving personal accountability for professional development and learning
- Continuing to invest in the wellbeing of our workforce
- Recruiting and retaining a workforce that reflects our communities

Embrace opportunities from information and technology

- Investing in information and technology as tools to enable a shift towards a digital organisation
- Exploiting new technologies such as predictive analytics, to provide us with better, more accurate data that we can share with partners to drive more informed problem solving
- Enabling the public and our people to access digital tools and support, helping us to improve service and reduce avoidable demand

Ongoing Programmes

1

**Transform
public
contact**

2

**Improving
operational
policing**

3

**Building
better
outcomes**

4

**Building a
better
organisation**

5

**Transform
information
services**

Greater Manchester Police

- **Development for educational establishments in North Manchester for both students and professionals**
- **Working with education, youth offending services and third sector organisations in particular The Factory Youth Zone in Moston**

Operation Stone

M News > Greater Manchester News > Manchester Crown Court

Jail for the evil pimp and his aunt, who forced young mums into Manchester's red light district - telling one terrified victim 'work, you dog'

The court heard evidence of a shocking catalogue of abuse against 'weak and desperate' women who were made to pick up punters and 'service' car wash workers
