

Review of polling districts and polling places 2013

Statutory review of polling districts and polling places 2013

Local authorities are required to carry out a review of polling districts and polling places every five years. The review seeks to ensure that all electors have reasonable facilities for voting in elections that are practicable in the circumstances and so far as is reasonable and practical seek to ensure that every polling place is accessible to electors who are disabled.

Manchester City Council is conducting its next review of polling districts and polling places beginning on 1 October 2013 and ending in January 2014. The review covers:

- Polling districts, which are the areas created by the division of wards into smaller parts. Within each polling district a polling place can be determined that is convenient to electors.
- Polling places, which are the locations (normally the buildings) in which polling stations are sited.

The review does not cover ward or constituency boundaries/names, which are the responsibility of the Local Government Commission (wards) and the Parliamentary Boundary Commission (constituencies).

As part of the review there is a period of public consultation, which will run between 1 October 2013 and 10 December 2013.

Electors of Manchester and other interested parties may make a representation in relation to the size and boundaries of polling districts and the location and suitability of polling places.

The (Acting) Returning Officer for Manchester is responsible for the polling stations, which are the rooms within polling places where the poll actually takes place. As part of the review, the (Acting) Returning Officer must formally comment on both the existing polling stations and, if relevant, any probable polling stations based on any new recommended polling places.

The (Acting) Returning Officer's submission will be published week beginning 13 October 2013.

A list of current polling districts and polling places can be found at the back of this document. Maps showing the current arrangements and the (Acting) Returning Officer's submission are available for inspection on the Council's website and at the following locations in the city:
