

Manchester's State of the City Report 2013/14

Linda Frost and Nigel Waddington
Public Intelligence, Performance and Intelligence
Chief Executive's Department

Presentation

- will summarise this year's State of the City report findings
- briefly show new visualisation tool capabilities

Overview

- State of the City is part of a suite of 3 publications – State of the City; State of the Wards; and State of the City: Communities of Interest
- Latest ‘State of the Wards’ data is available in the Intelligence Hub Analysis Tool
- Communities of Interest report published on Manchester Partnership website

Structure

- Nine chapters reporting progress against priorities of Community Strategy:

Growth	People	Place
Economy	Employment, skills and dependency	Community safety
Population	Children and families	Environment and climate change
Transport		Community wellbeing and neighbourhood satisfaction
Housing		

Data visualisation

Most of the graphs and tables are hyperlinked to the visualisation platform:

- based on SAP/Business Objects software
- allows a user-customised view
- can download data to Excel or PDF
- shows latest data at the time of writing
- potential to migrate 'State of the Wards' data to this platform in the long term

There are no input controls defined on this report.

Economic Growth and Regeneration - Front Cover

Report Name: Economic Growth and Regeneration Report.

Description: State of the City Report Visualisations covering the Economic Growth and Regeneration chapter. These charts appear in the SOTC pdf available on the Manchester City Council Website.

Select the chart or table you wish to view from the tabs below.

The panel on the left of the screen contains options which the user can adjust to change the chart or table [if no panel shows, click in the 'View' box and then 'left panel' to display].

Select the variable required, then click OK to redraw the chart or table. To select more than one variable, hold down the Ctrl key while making selection(s).

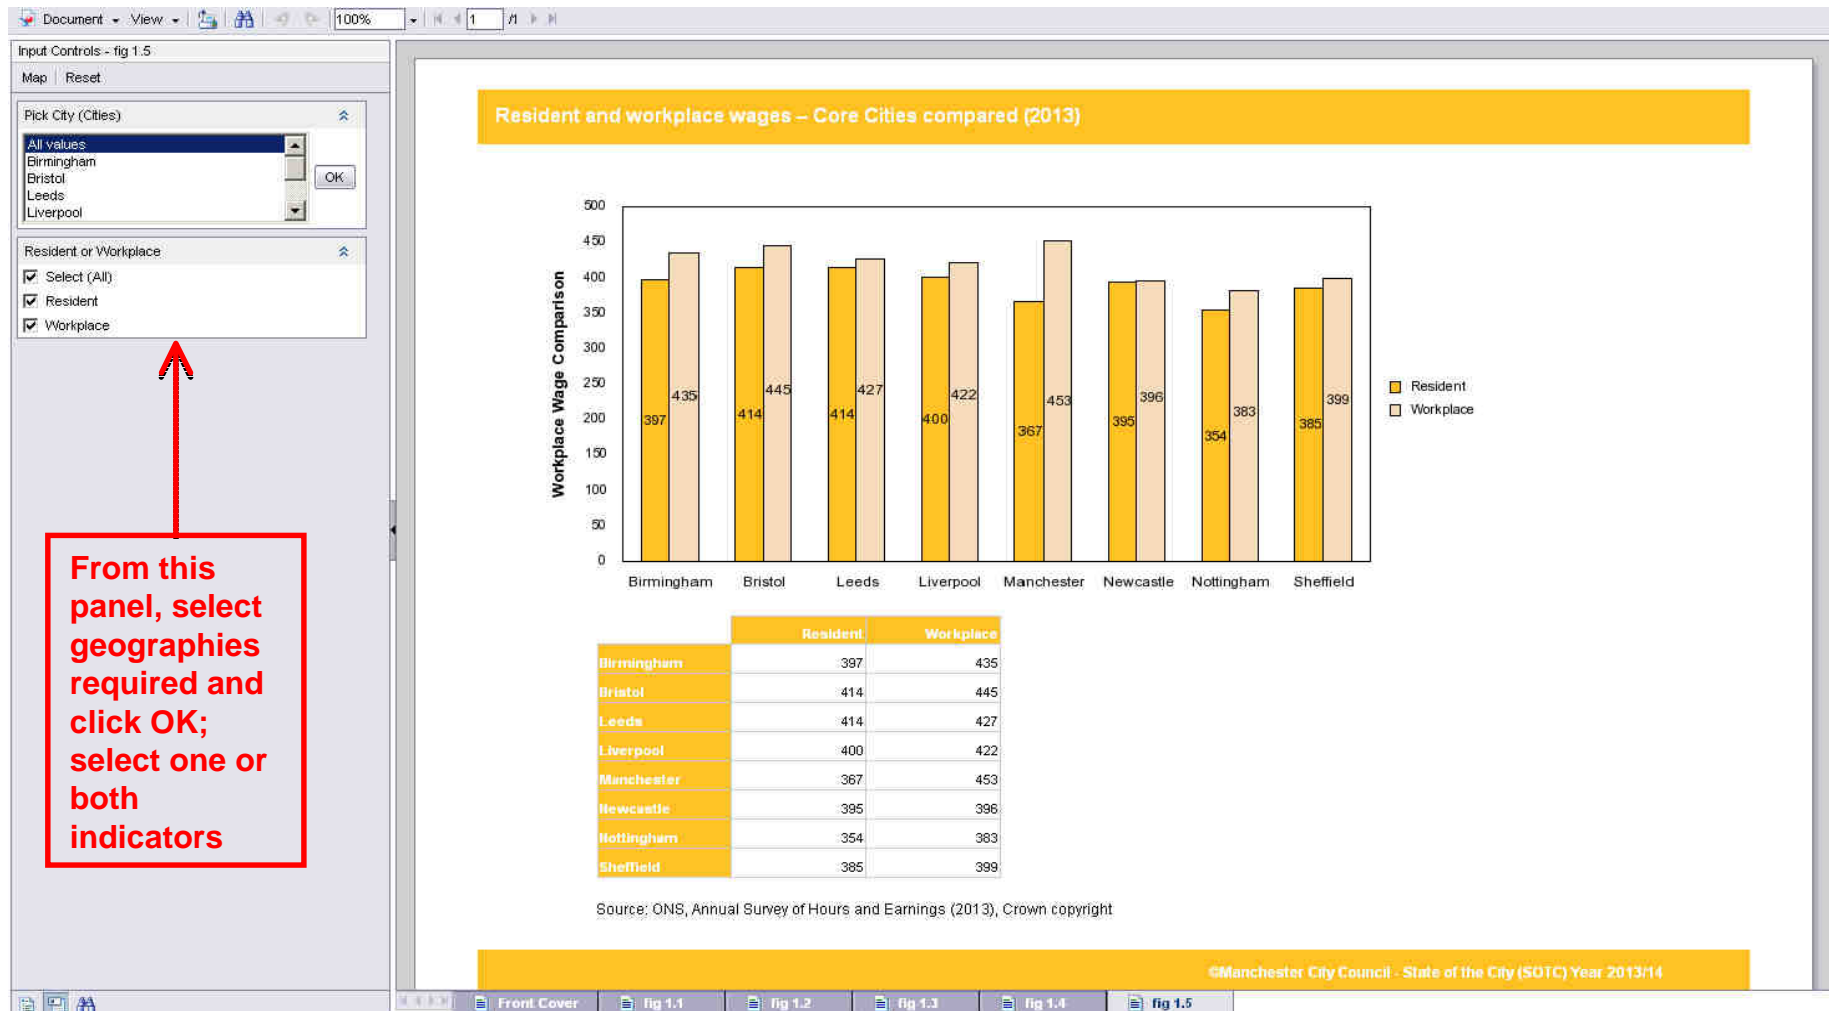

Use slider bar to change the years viewed.

Instructions: Click on 'Document' to export and save the data.

Growth

Population growth

- Manchester was fastest growing city in England between 2001 and 2011
- Official figures show rate of growth has slowed
- Local intelligence is being used to produce more detailed local forecasts which will be available at a later date

Population projections

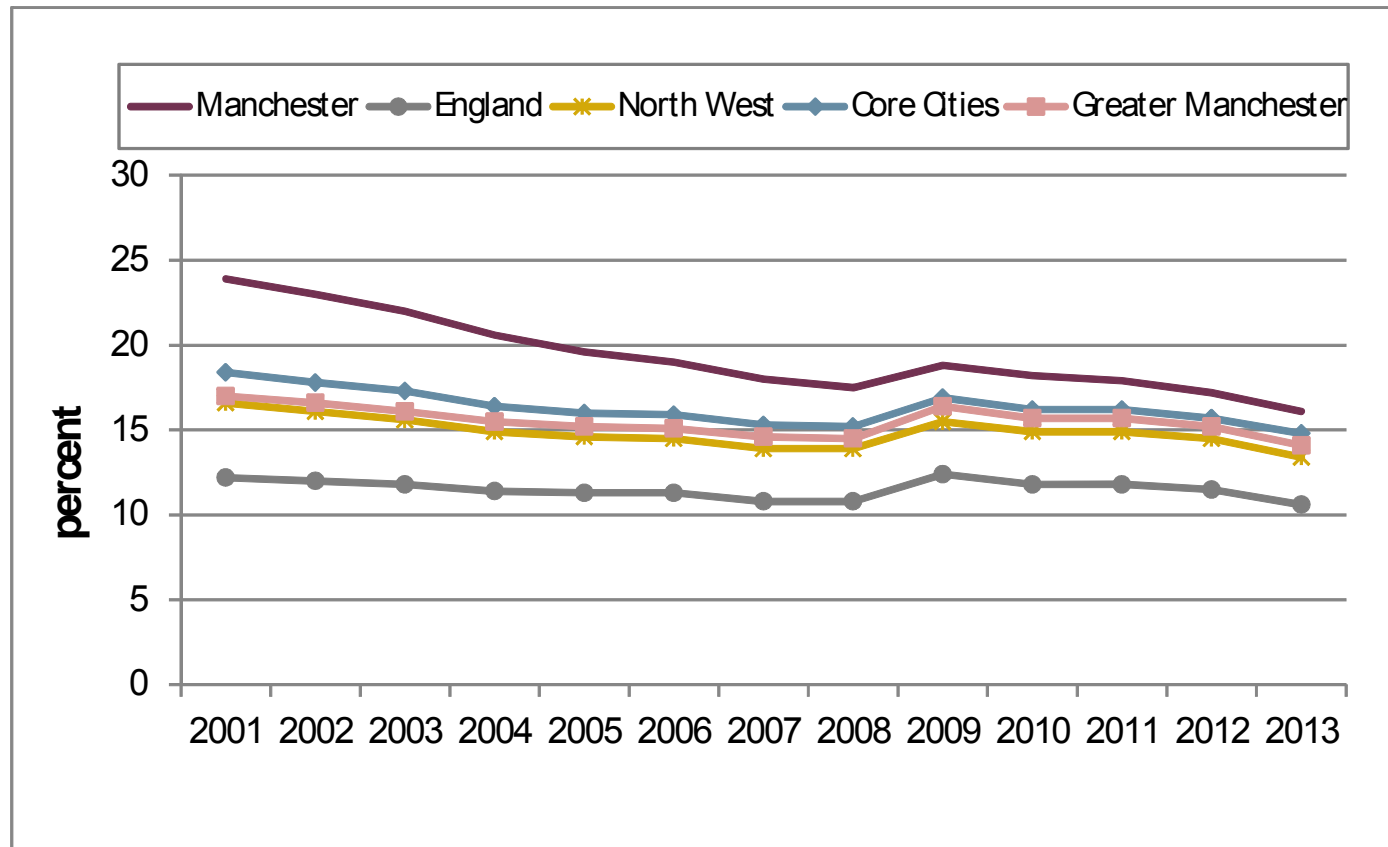

Economic growth

- GM South GVA rose by 3.8% during 2012 (UK=1.6%)
- Business growth outpacing Core Cities
- Number of jobs grew by 3.2% (2011-12) (England = 0.5%)
- Manchester has highest average workplace wage of all Core Cities but one of lowest resident wages

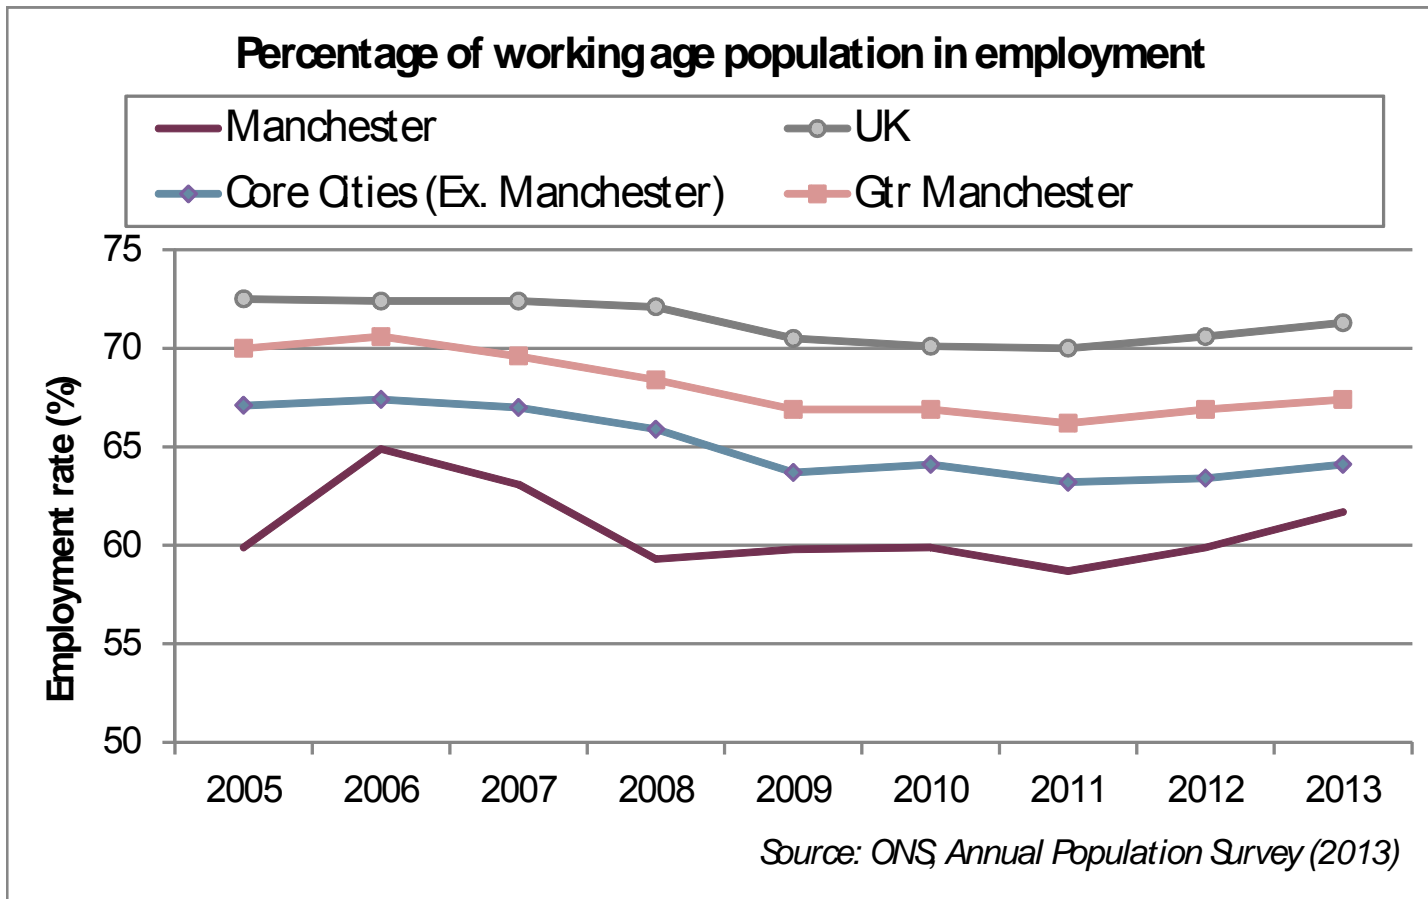

People

Worklessness

Out-of-work benefit claimants

Employment

Skills

- Proportion of residents with no qualifications continues to fall (13% in 2013)
- Proportion of residents with Level 2 qualifications continues to rise (70% in 2013) [ward range: 44% to 92%]

Children

- School readiness = 47% (England = 52%)
- Level 4 achievement at KS2 = 75% (UK = 75%)
- 5 GCSEs at KS4 = 53% (England = 59%)
- Number of LACs rose by 5% during 2013-14 to stand at 1,374
- 36% of children living in poverty

Health

- Life expectancy at age 65 improving but almost 13% lower than England average
- 31% of remaining life (at age 65) spent disability free compared to 44% nationally
- Mortality from preventable causes almost double national rate
- Successful drug treatments for opiate clients rose to 8.1% in 2014, compared to 7.8% nationally
- Alcohol-related hospital admissions fallen for two consecutive years but 51% above national rate.
- Under-18 conception rate continues to fall: now 45 per 1,000

Place

Community safety

- Recent trend of reduced victim-based crime reversed with 3.7% increase during 2013-14
- Thefts up by 4.6%
- Personal robberies down by 7.8%
- Offences linked to violence with injury down by 3%
- Firearms discharges down from 93 in 2007-08 to nine in 2012-13
- First-time entrants to Youth Justice System down by 31% in 2012-13 (to 704 per 100,000)
- The number of accidental primary (dwelling) fires fell by 2.5% to 501.

Environment

- CO₂ levels reduced by 16% between 2005 and 2010 against target of 41% by 2020
- NO₂ targets met in south Manchester but exceeded in Piccadilly Gardens and Oxford Road
- Proportion of household waste recycled or composted fell slightly during latest year, reversing upward trend
- Overall reduction in reported fly-tipping

Satisfaction and wellbeing

- ‘Satisfaction with local area’ and ‘satisfaction with life’ remain fairly constant and continue to be related to levels of deprivation
- Percentage of residents that feel they belong to neighbourhood increased from 76% to 79%
- 34 million visits to MCC’s cultural and recreational facilities
- Galleries experience busiest year ever
- Sports participation rose from 36% to 41% (national = 35%)
