1. Monitoring Previous Recommendations

Date	Item	Recommendation	Response	Contact Officer
25 November 2015	ESC/15/67 Careers Education, Information, Advice and Guidance	To recommend to the Director of Education and Skills that further work be undertaken to integrate and co-locate the targeted youth support and the early help hubs and that the Committee review this in partnership with the Children and Young People Scrutiny Committee.	A response to this recommendation has been requested and will be reported back to the Committee via the Overview report.	John Edwards, Director of Education and Skills/Rachel McKeon, Scrutiny Support Officer
27 January 2016	ESC/16/03 Science and Health Innovation	To note the importance of real life stories of the impact of this work being identified and communicated to residents and to request that Dr Burrows circulate examples of this impact to members.	A response to this recommendation has been requested and will be circulated to members.	Dr Mike Burrows, Managing Director of Greater Manchester Academic Health Science Network (AHSN)
25 May 2016	ESC/16/21 Strategic update – The Manchester College	To welcome the recommendation that the further information regarding the number of students accessing Level 1 and 2 course is circulated to members.	A response to this recommendation has been requested and will be circulated to members when comparator data is available.	John Thornhill, Manchester College
25 May 2016	ESC/16/21 Strategic update – The Manchester College	To welcome the recommendation that the further information detailing alternative providers of Level 1 and 2 course across the city is circulated to members of the Committee.	A response to this recommendation has been requested and will be circulated to members when comparator data is available.	John Thornhill, Manchester College
20 July 2016	ESC/16/31 Cumulative Impact of Welfare Reforms	To request further information on the work taking place at a Greater Manchester level on data protection, particularly in relation to Reform.	A response to this recommendation has been requested and will be reported back to the Committee via the Overview report.	Angela Harrington, Head of Work and Skills

20 July 2016	ESC/16/32 Universal Credit roll-out and update on Job Centre Plus	To request that further data on Manchester residents obtaining work through the Manchester Employer Suite be circulated to members.	A response to this recommendation has been requested and will be circulated to members.	Tim Haworth, Department for Work and Pensions
7 September 2016	ESC/16/38 The Economic Impact of Devolution – Planning and Strategic Transport	To ask Metrolink to provide clear information on future plans for the Metrolink on their website.	A response to this recommendation has been requested and will be reported back to the Committee via the Overview report.	Nicola Kane, Transport for Greater Manchester
7 September 2016	ESC/16/39 New Business Rates Regime – Implications for the Economic Growth Agenda	To request information on how much money a Mayoral Levy of 2p in the pound would raise.	A response to this recommendation has been requested and will be reported back to the Committee via the Overview report.	Carol Culley, City Treasurer
7 September 2016	ESC/16/41 Working Well Update	To request that the Executive Member for Adult Health and Wellbeing provide an update for members on how people were accessing alcohol dependency services since the Brian Hore Unit closed and whether more people were now accessing these services.	A response to this recommendation has been received: “Looking at the presentations to CGL , the new provider of the Integrated Alcohol and Drug Treatment Service this year from 1 April to 30 June 2016, compared to presentations to the previous provider, the Community Alcohol Team (CAT) from 1 April to 30 June 2015: - CGL 402 presentations in Quarter One, April to June 2016. - CAT 194 presentations in Quarter One, April to June 2015. When looking at waiting times:	Councillor Andrews, Executive Member for Adult Health and Wellbeing

			<p>- CGL (1 from 1 April 2016) - no waiting times from presentation to treatment start. The national average for the % of clients waiting over 3 weeks to start alcohol treatment is 3.8 %.</p> <p>- CAT (1 April 2015 to 31 March 2016)) - 25.8 % of clients waited over 3 weeks from presentation to treatment start. The national average was 4.8 %."</p>

2. Key Decisions

The Council is required to publish details of key decisions that will be taken at least 28 days before the decision is due to be taken. Details of key decisions that are due to be taken are published on a monthly basis in the Register of Key Decisions.

A key decision, as defined in the Council's Constitution is an executive decision, which is likely:

- To result in the Council incurring expenditure which is, or the making of savings which are, significant having regard to the Council's budget for the service or function to which the decision relates, or
- To be significant in terms of its effects on communities living or working in an area comprising two or more wards in the area of the city.

The Council Constitution defines 'significant' as being expenditure or savings (including the loss of income or capital receipts) in excess of £500k, providing that is not more than 10% of the gross operating expenditure for any budget heading in the in the Council's Revenue Budget Book, and subject to other defined exceptions.

An extract of the most recent Register of Key Decisions, published on **1 November 2016**, containing details of the decisions under the Committee's remit is included below. This is to keep members informed of what decisions are being taken and, where appropriate, include in the work programme of the Committee.

3. Item for Information

Subject	At its October 2016 meeting, members of the Economy Scrutiny Committee requested an item for information on the implications of Brexit. This report was provided to Executive on 19 October 2016.
Contact Officers	Deborah Dua Tel: 0161 234 3376 Email: d.dua@manchester.gov.uk

Manchester City Council Report for Resolution

Report to: Executive – 19 October 2016

Subject: The Implications of Brexit

Report of: The Chief Executive

Purpose of report

Attached at Annex A is the latest edition of the Greater Manchester Brexit Monitor which is produced on a monthly basis to provide a real-time snap shot of the economic and policy impact of Brexit. The purpose of this report is to highlight key issues for consideration by the Executive.

Recommendations

- 1, to note the contents of the September Brexit Monitor and the cautious optimism in business and consumer sentiment, acknowledging that the full impact of the decision to leave the EU is yet to be felt and that no detailed decisions have been made in relation to terms of trade and rules and regulations;
 2. to note the headline announcements on Brexit covered by the Prime Minister in her main speech at the Conservative Party Conference, which add impetus to the requirement for Government to undertake a detailed analysis of the sectoral and spatial impacts of options for forging new trading relationships as part of the withdrawal strategy from the EU based. Greater Manchester has called for this analysis to be undertaken through the GM submission to the Autumn Statement process;
 3. to note that a letter has been sent to the Chancellor of the Exchequer and the Secretary of State for Transport from the Leaders of the Northern Core Cities stressing the importance of committing to transport investment in the North.
-

Wards affected: All

Manchester Strategy outcomes	Summary of the contribution to the strategy
A thriving and sustainable city: supporting a diverse and distinctive economy that creates jobs and opportunities	The decision to withdraw from the European Union has had a negative impact on investor and business confidence. It is critical that Manchester is able to provide support and advice during the challenging and uncertain times ahead and the ability to support businesses to drive productivity, innovate and export will become more important than ever.
A highly skilled city: world class and home grown talent sustaining the city's economic success	Withdrawal from the EU will significantly affect the higher education sector and as such will have a disproportionate impact on cities with a strong university presence such as Manchester. Whilst there will be no short-term change to the status of students and university staff the longer term implications depend on the terms of withdrawal. Ongoing access to transnational research funding is likely to be dependent on the UK's willingness to sign up to the free movement of people.
A progressive and equitable city: making a positive contribution by unlocking the potential of our communities	Post-Brexit, unemployment is expected to rise and real earnings are set to be hit by both higher inflation and slower nominal growth in wages. Combined with a freeze in working age benefits the fall in lower incomes is now likely to be sharper than previously predicted. If we are to reverse the decline in living standards across all levels of the income distribution we need to radically change our approach.
A liveable and low carbon city: a destination of choice to live, visit, work	A fall in share values and a loss of confidence amongst housing developers means that housing completion rates are likely to decline at a time when current demographic projections indicate that a significant uplift in new housing provision will be required. Urgent work is now underway to maximise levels of housing development and investment. The ability of Manchester to continue to attract visitors and workers will be affected by any restriction to the free movement of people. Britain's exit from the EU will have significant social implications and an analysis is underway to provide a better understanding of social inclusion and community cohesion issues within the city.

A connected city: world class infrastructure and connectivity to drive growth	Central to any strategy for creating a stable economic environment will be a re-statement and reinforcement by Government of support for longstanding commitments that are of fundamental importance to the national economy, including investment in critical infrastructure such as HS2 and the Northern Hub.
---	---

Full details are in the body of the report, along with any implications for:

- Equal Opportunities Policy
- Risk Management
- Legal Considerations

Financial Consequences – Revenue

None

Financial Consequences – Capital

None

Background documents (available for public inspection):

None

1. Background

1.1 On behalf of all Greater Manchester authorities New Economy is monitoring the economic and social trends and policy developments arising from the decision to leave the EU on a monthly basis.

1.2 The latest iteration of the Greater Manchester Brexit Monitor is attached. The impact of Brexit is being tracked across the key themes below:

- Macro-economy trends and developments
- Key sectors (including business investment)
- Rules, regulations and terms of trade & access to European Funding
- Property investment, housing and planning

- Economic inclusion

2. Key messages

- 2.1 The key message arising from this month's Brexit Monitor is one of cautious optimism in business and consumer sentiment. For businesses, rising optimism is seen across the service and manufacturing sectors, albeit that the latest overall rise in the production of goods has been led by a rise in oil and gas production, masking a fall in manufacturing output.
- 2.2 Rising consumer confidence is backed by members of the Royal Institute of Chartered Surveyors who have predicted in September an average 3.3% rise in house prices over the next 5 years.
- 2.3 It is important to note that the full impact of the decision to leave the EU remains to be felt, particularly within the labour market, which tends to lag behind other indicators. There also remain no substantive decisions related to specific trade relations and rules and regulations.
- 2.4 Additional important context is the announcement of two things by the UK Prime Minister Theresa May at the Conservative party conference at the start of October:
- a "Great Repeal Bill" will be brought forward in the next Queen's Speech, expected next April. Leaving the EU requires the repeal or at least substantial amendment of the 1972 legislation, as well as other statutes implementing EU law. The Queen's Speech will repeal the European Communities Act 1972 as and when the UK leaves the European Union;
 - a deadline for invoking Article 50. This will be done, the PM said, before the end of March next year. Unless there is some agreement to extend the timeframe of withdrawal, this would mean that the UK would cease to be a member of the EU by 2019.
- 2.5 The announcements made by the PM add impetus to the requirement for a detailed analysis of the options for forging new trading relationships as part of the withdrawal strategy from the EU based on evidence, rather than adopting a policy based upon assertion and intuition. As part of Greater Manchester's submission to the 2016 Autumn Statement process we have urged Government to undertake this analysis in partnership with Core Cities to provide an economic assessment focusing on the impacts on business and productivity, sectors of employment, the implications for supply chains, and a spatial analysis of where the impacts will be greatest, which could then be used to inform the Government's emerging Industrial Strategy.
- 2.6 In addition, whilst the speech by the Chancellor of the Exchequer at the Conservative Party Conference re-affirmed that the economy remains "robust" - and highlighted the "better than expected" recent data (most recent of which was this morning's PMI manufacturing data) - he repeatedly signalled the likelihood of difficult times ahead in the face of Brexit.

- 2.7 The Chancellor highlighted that there will not be a direct copy of Labour's plan for large-scale public investment, in the face of Brexit, but he is expected to introduce a new "mechanism" to scrutinise "targeted, high-value" infrastructure spending.
- 2.8 The Chancellor made a restatement of prior commitments to invest in the UK's infrastructure: for HS2 to go ahead; for significant investment in housing; backing for the Northern Powerhouse alongside the Midlands Engine; and that all decisions on rail and road investment will be taken through the lens of regional development.
- 2.9 Given the content of this speech, and the importance of continued investment in Northern transport infrastructure for national growth and rebalancing, it will be essential for the Autumn Statement to confirm the route of HS2, the completion of the Northern Hub and to give support the priorities of Transport for the North at the earliest opportunity.
- 2.10 A letter has been sent to the Chancellor from the Leaders of the five Northern Powerhouse Core Cities urging the Government to make an announcement at the time of the Autumn Statement regarding the route of phase 2b of HS2, and of the Government's commitment to Northern Transport Strategy priorities for transformational rail journey times between Manchester, Manchester Airport and other principal northern cities.

3. Recommendations

- 3.1 Recommendations appear at the front of this report.

**Economy Scrutiny Committee
Work Programme – 9 November 2016**

Wednesday 9 November 2016, 10.00am (Report deadline Friday 28 October 2016)				
Item	Purpose	Lead Executive Member	Lead Officer	Comments
