

**Manchester Health and Wellbeing Board
Report for Information**

Report to: Manchester Health and Wellbeing Board – 2 November 2016

Subject: Manchester Local Care Organisation – Provider Update

Report of: Gill Heaton, Chair – Manchester Provider Board

Summary

The Health and Wellbeing Board is asked to receive this update from the Manchester Provider Board regarding development of ‘One Team’ models of care and thinking around the Local Care Organisation.

The Manchester Provider Board continue to implement the Integrated Neighbourhood Team model and further develop ‘One Team’ models of care. The Manchester Provider Board also intends to respond to any procurement processes relating to the Local Care Organisation.

Recommendations

The Board is asked to:

- Note the progress made to date by the Manchester Provider Board
- Note the Manchester Provider Board’s intention to respond to any procurement process for Local Care Organisation services.

Board Priority(s) Addressed:

Health and Wellbeing Strategy priority	Summary of contribution to the strategy
Getting the youngest people in our communities off to the best start	The Manchester Provider Board have, since January 2016, been developing models of care and thinking around a Local Care Organisation which will deliver the Health & Wellbeing Board’s 7 key priorities.
Improving people’s mental health and wellbeing	
Bringing people into employment and ensuring good work for all	
Enabling people to keep well and live independently as they grow older	
Turning round the lives of troubled families as part of the Confident and Achieving Manchester programme	
One health and care system – right care, right place, right time	
Self-care	

Links to the Manchester Health and Social Care Locality Plan

The three pillars to deliver the Manchester Health and Social Care Locality Plan	Summary of Contribution or link to the Plan
A single commissioning system ensuring the efficient commissioning of health and care services on a city wide basis with a single line of accountability for the delivery of services	
'One Team' delivering integrated and accessible out of hospital community based health, primary and social care services	The Manchester Provider Board have been responsible for the implementation and further development of the 'One Team' models of care and development of an LCO since January 2016.
A 'Single Manchester Hospital Service' delivering consistent and complementary arrangements for the delivery of acute services achieving a fully aligned hospital model for the city

are available up to 4 years after the date of the meeting. If you would like a copy please contact one of the contact officers above.

- The Greater Manchester Strategic Plan: Taking Charge of Health and Social Care in Greater Manchester.
- The Manchester Locality Plan

1. Introduction:

This report provides a brief update on progress to date made by the Manchester Provider Board around the implementation and development of 'One Team' models of care and development of thinking around a Local Care Organisation. It also notes the intention of the Manchester Provider Board to respond to any procurement processes relating to the Local Care Organisation.

2. Background:

The Manchester Provider Board was established in April 2015 with the mandate to coordinate a collective response from providers to the One Team specification which it successfully produced.

As described in a briefing note to the HWBB in January 2016, the Manchester Provider Board was asked to lead on the further development and implementation of One Team model and the development of a Local Care Organisation. The Manchester Provider Board is comprised of the main health and social care providers in the city, membership including but not limited to:

- Central Manchester University Hospitals NHS Foundation Trust;
- Greater Manchester West Mental Health NHS Foundation Trust;
- Greater Manchester Local Pharmacy Committee;
- Local Dental Committee;
- Local Medical Committee;
- Local Optometry Committee;
- MACC (representing the voluntary, community & social enterprise sector)
- Manchester City Council;
- North West Ambulance Service;
- Northern Health GPPO;
- Pennine Acute Hospitals NHS Trust;
- Primary Care Manchester;
- South Manchester GP Federation; and
- University Hospitals of South Manchester NHS Foundation Trust.

The Manchester Provider Board's vision has been to develop models of care and a Local Care Organisation that will:

- Provide a high standard of care closer to home;
- Enable co-ordinated partnership working to simplify care pathways and accessibility to services; and
- The delivery of population health.

The Manchester Provider Board's vision for the Local Care Organisation will focus on people, prevention and caring for those who are at risk of hospital intervention through an assets based approach. It will coordinate care across primary, community and secondary settings working alongside a wide range of health and care providers, on five key population cohorts that will be the initial

focus for the new models of care developed for the Local Care Organisation. These five cohorts are only 14% of the Manchester population (92,500 people) but they place significant demand on acute activity, accounting for 44% of all secondary care spend and 95% of residential and nursing care activity. These five cohorts are:

- Frail older people;
- Long-term conditions and end-of-life;
- Children and young people;
- Mental health, learning disabilities and Dementia; and
- Complex lifestyles.

3. Progress:

The members of the Manchester Provider Board have been working together to establish a partnership to implement and develop 'One Team' models of care and discussions are ongoing regarding the most appropriate arrangements to constitute a partnership to hold a single contract for out of hospital services in future.

In terms of models of care:

- i. The Integrated Neighbourhood Teams continue to develop, with plans for co-location and single assessments in place so that all teams will have gone live by March 2017;
- ii. A number of workshops took place over the summer period to begin to develop models of care for the five priority cohorts, with more than 150+ attendees from a wide range of disciplines; and
- iii. The Manchester Provider Board has agreed to further work up models of care for Frail Older People and those with Long-term Conditions and end-of-life as priorities, as the largest of the cohorts in terms of demographics.

4. Next Steps:

The Manchester Provider Board will continue to develop and implement the models of care outlined in the section above. As the Local Care Organisation will need to be procured under EU rules via a competitive process, the Manchester Provider Board intends to produce a response to any procurement process and believe that they are in a strong position to successfully bid for this contract.

5. Recommendations:

The Board is asked to:

- Note the progress made to date by the Manchester Provider Board; and
- Note the Manchester Provider Board's intention to respond to any procurement process for Local Care Organisation services.
