LC/14/07 Model conditions for licences under the Licensing Act 2003

A report of the Head of Planning, Building Control and Licensing was presented to the Committee. The report provided information regarding a proposed suite of model conditions for use by all parties in proposing and attaching conditions to premises licences and club premises certificates issued under the Licensing Act 2003.

A representative from the Premises Licensing Unit (PLU) explained the background and scope of the report. The report proposed that a suite of model licence conditions be introduced to standardise clauses and conditions used by each of the Responsible Authorities.

Some members of the Committee expressed concern that the model conditions were not precise or prescriptive. However it was established that precise licence conditions could be agreed on a case by case basis.

Decision

1. To approve the model conditions, and recommend their use in practice.
2. To approve the process for review and amendment of any of the model conditions as stated in section 5.4 of the report.
