

Overview and Scrutiny Climate Change Subgroup

Date: Tuesday, 22 October 2019
Time: 10.00 am
Venue: Level 2, Town Hall Extension

Everyone is welcome to attend this committee meeting.

There will be a private meeting for members of the Committee at 9:30 am in Committee Room 6, Room 2006, Level 2 of the Town Hall Extension.

Access to the Council Antechamber

Public access to the Council Antechamber is on Level 2 of the Town Hall Extension, using the lift or stairs in the lobby of the Mount Street entrance to the Extension. That lobby can also be reached from the St. Peter's Square entrance and from Library Walk. **There is no public access from the Lloyd Street entrances of the Extension.**

Membership

Councillors - Lyons, Shilton Godwin, Whiston, Wright, Flanagan, Jeavons and Kilpatrick

Agenda

- 1. Manchester City Council Climate Change Action Plan Update** 5 - 30
Report of the Strategic Lead Policy and Partnerships

The Council's existing Climate Change Action Plan 2016-20 sets out the actions that are required to deliver a 41% reduction in carbon emissions by 2020 from a 2009/10 baseline.

The Council is now working on the production of a new 5 year plan which will replace the existing 2016-2020 plan and will reflect the more ambitious target and recent Climate Emergency Motion. This report provides an update on the process that will be followed to produce a new plan.
- 2. Climate Emergency Declaration Response** 31 - 40
Report of the Strategic Lead Policy and Partnerships

In November 2018, the Council's Executive agreed to the establishment of science-based carbon reduction targets for Manchester which required the city to become net zero carbon by 2038. In July 2019 the Council declared a climate emergency. This report provides a brief update on the Council's response to the climate emergency declaration.
- 3. Climate Emergency and Community Engagement** 41 - 50
Report of the Strategic Director (Neighbourhoods) and the Strategic Lead - Neighbourhoods

In November 2018, the Council's Executive agreed to the establishment of science-based carbon reduction targets for Manchester, which required the city to become net zero carbon by 2038. In July 2019, the Council declared a Climate Emergency. The declaration was explicit about the Council working with residents / other partners at a neighbourhood level, to ensure they are proactively involved in achieving this target.

This report provides a summary on progress to date, and building on this momentum, outlines further actions that communities, Officers, Members and other partners, want to work on together to help reduce carbon. Building capacity to accelerate action at a neighbourhood level is key, as well as embedding priority actions in neighbourhood based Ward Plans.
- 4. Terms of Reference and Work Programme** 51 - 54
Report of the Governance and Scrutiny Support Unit attached

To review the Terms of Reference and Work Programme of the Subgroup.
