

Health Scrutiny Committee

Date: Wednesday, 25 May 2022

Time: 10.00 am

Venue: Council Chamber, Level 2, Town Hall Extension

Everyone is welcome to attend this committee meeting.

Access to the Public Gallery

Access to the Public Gallery is on Level 3 of the Town Hall Extension, using the lift or stairs in the lobby of the Mount Street entrance to the Extension. **There is no public access from any other entrance.**

Filming and broadcast of the meeting

Meetings of the Health Scrutiny Committee are 'webcast'. These meetings are filmed and broadcast live on the Internet. If you attend this meeting you should be aware that you might be filmed and included in that transmission.

Membership of the Health Scrutiny Committee

Councillors -The membership of the Committee will be confirmed at the Council meeting on 18 May 2022

Agenda

1. Urgent Business

To consider any items which the Chair has agreed to have submitted as urgent.

2. Appeals

To consider any appeals from the public against refusal to allow inspection of background documents and/or the inclusion of items in the confidential part of the agenda.

3. Interests

To allow Members an opportunity to [a] declare any personal, prejudicial or disclosable pecuniary interests they might have in any items which appear on this agenda; and [b] record any items from which they are precluded from voting as a result of Council Tax/Council rent arrears; [c] the existence and nature of party whipping arrangements in respect of any item to be considered at this meeting. Members with a personal interest should declare that at the start of the item under consideration. If Members also have a prejudicial or disclosable pecuniary interest they must withdraw from the meeting during the consideration of the item.

4. Minutes

To approve as a correct record the minutes of the meeting held on 9 March 2022.

5. Covid-19 and Vaccination Programme Update

Report of the Director of Public Health, Manchester City Council

Page
11 - 12

At the March 2022 meeting of the Committee, the final draft of the Living Safely and Fairly with Covid plan was presented. The Plan highlighted the ambition to build a local resilient health protection system for the city, learning from the Covid-19 pandemic.

A presentation on progress will be provided to the Committee, along with the latest available data on Covid-19 vaccination uptake and the Spring/Summer vaccination plan.

6. Overview Report

Report of the Governance and Scrutiny Support Unit

Page
13 - 24

The monthly report includes the recommendations monitor, relevant key decisions, the Committee's work programme and items for information. The report also contains additional information including details of those organisations that have been inspected by the Care Quality Commission.

****Please note, there will be a Work Programming session at the rise of this meeting for Committee members only.****

Information about the Committee

Scrutiny Committees represent the interests of local people about important issues that affect them. They look at how the decisions, policies and services of the Council and other key public agencies impact on the city and its residents. Scrutiny Committees do not take decisions but can make recommendations to decision-makers about how they are delivering the Manchester Strategy, an agreed vision for a better Manchester that is shared by public agencies across the city.

The Health Scrutiny Committee has responsibility for reviewing how the Council and its partners in the NHS deliver health and social care services to improve the health and wellbeing of Manchester residents.. .

The Council wants to consult people as fully as possible before making decisions that affect them. Members of the public do not have a right to speak at meetings but may do so if invited by the Chair. If you have a special interest in an item on the agenda and want to speak, tell the Committee Officer, who will pass on your request to the Chair. Groups of people will usually be asked to nominate a spokesperson. The Council wants its meetings to be as open as possible but occasionally there will be some confidential business. Brief reasons for confidentiality will be shown on the agenda sheet.

The Council welcomes the filming, recording, public broadcast and use of social media to report on the Committee's meetings by members of the public.

Agenda, reports and minutes of all Council Committees can be found on the Council's website www.manchester.gov.uk.

Smoking is not allowed in Council buildings.

Joanne Roney OBE
Chief Executive
Level 3, Town Hall Extension,
Albert Square,
Manchester, M60 2LA

Jay Patient, Be Well Service Manager, Big Life Group
Ian Green, PCN Coach, Big Life Group
Steve Quinlan, Link Worker, Big Life Group
Lynne Warburton, Pathways CIC
George Ramsay, citizen of Manchester
Gaynor Heaton, citizen of Manchester

HSC/22/13 Minutes

Decision

To approve the minutes of the meeting held on 9 February 2022 as a correct record.

HSC/22/14 Living Safely and Fairly with Covid

The Committee considered the report of the Director of Public Health and the Medical Director, Manchester Health and Care Commissioning that described that following recent national announcements the Director of Public Health, council colleagues and other partners had been developing the local Manchester Living Fairly and Safely with Covid draft plan. This draft plan had been circulated to Members for consideration in advance of the meeting.

Key points and themes in the plan included:

- Summary of our Covid-19 response so far;
- Covid-19 Inequalities;
- Epidemiology, including possible future scenarios;
- National Living Safely with Covid-19 Strategy key information;
- Building a shared understanding of what ‘living safely and fairly with Covid-19’ meant for Manchester – our approach, what we would do and inequalities considerations;
- Local Governance arrangements;
- Our 12-point plan for Living Safely and Fairly with Covid-19 in Manchester; and
- Resource requirements.

The Committee further considered the joint presentation of the Director of Public Health and the Medical Director, Manchester Health and Care Commissioning, that had been circulated to all Members in advance of the meeting that provided an update on COVID-19 activity.

Key points and themes in the presentation included:

- The latest headline figures for the 7 days ending 1 March 2022; and
- An update on the vaccination programme with particular reference to actions taken by Neighbourhood Teams to increase uptake across Wards, vaccine breakdown by ethnicity, case studies and feedback.

Some of the key points that arose from the Committee's discussions were: -

- To welcome the local Manchester Living Fairly and Safely with Covid draft plan, noting that it included actions to address inequalities and fairer access to services;
- Welcoming the information relating to the newsletter and the inclusion of the trusted voice that had been used to promote the vaccination in local communities, adding this model needed to be rolled out across other areas;
- Noting the prevalence of Covid cases in Manchester and how this could be related to increased social mixing and testing behaviours;
- Was there capacity within the existing teams to respond to any future wave of a Covid variant;
- Noting the removal of free testing and the importance of recognising that Omicron was still present;
- Were Officers confident that Care Home settings were supported to manage any future outbreaks;
- The challenge in monitoring COVID-19 in future and the need to clarify how the Committee would scrutinise this; and
- Further information was sought on the Pakistani Sounding Board.

The Director of Public Health advised that the relaxation of the national restriction rules and the subsequent increase in social mixing would result in an increase in positive cases, adding that the vaccination was the best way to protect people from serious illness. He advised that following the decline in testing the team were now reliant on ONS (Office for National Statistics) data, noting that there were challenges associated with how this data was reported. He advised that the intention was to establish a bespoke local system to accurately monitor infection rates. He advised that a further national announcement was expected in the week commencing 21 March 2022 regarding the provision of LFT testing for vulnerable people, adding that all hospital staff; social care staff and hospital patients continued to be tested. In response to the questions raised regarding Care Homes, he stated that any patient to be discharged into a care home from a hospital was tested and good relationships had been established in Manchester to respond quickly and effectively to any outbreak in a Care Home setting. He further added that this area of work and locally developed response would be subject to a peer review as it had been recognised nationally as good practice.

The Public Health Consultant advised that the Health Protection Team and the Response Hub would be retained in the event they were required as a result of a further wave or variant. She stated that when not in a response mode these teams would continue their work on wider health protection projects. She commented that the local helpline would be retained to offer advice and guidance to both residents and schools.

The Consultant in Public Health Medicine provided a response to the comment raised regarding the Pakistani Sounding Board by stating that it had been the decision of the members of the Board who had agreed to extend the Board to include members of the South Asian population. She added that following discussions, it was decided to establish a specific Pakistani Sounding Board which was established last year.

The Deputy Leader stated that the Manchester Living Fairly and Safely with Covid draft plan was a comprehensive document that reflected and built upon the learning and good practice developed over the previous two years. She paid tribute to everyone involved in the production of the plan and supported the work described to address inequalities. She reiterated her call to Government for a fair, sustainable funding plan to ensure that the city could deliver on its ambitions for the city and improve the health outcomes for all Manchester residents.

Decision

To note the report.

HSC/22/15 Future Delivery of Social Prescribing

The Committee considered the report of the Director of Public Health that provided an overview of delivery of social prescribing in Manchester.

Key points and themes in the report included:

- Providing an outline of how the Be Well service worked;
- Examples of good practice in the delivery of social prescribing;
- Highlighting case studies of the benefits of the service for Manchester residents;
- A summary of the findings of the independent evaluation of Manchester's Prevention Programme, and other social prescribing initiatives currently being developed and delivered within both Manchester and Greater Manchester; and
- Describing the next steps in developing and delivering Manchester's social prescribing and wellbeing support provision within the context of the Population Health Covid-19 Recovery Plan and Manchester's Wellbeing Model.

The Committee further received a presentation from Jay Patient, Be Well Service Manager, Big Life Group that provided an overview of:

- The aims and values of the Be Well Service;
- Access;
- Pathways within Be Well;
- Progression within service since initial commissioning;

- Outcomes;
- Examples of good practice; and
- Aims for 2022.

The Committee then heard from George Ramsay and Gaynor Heaton, residents of Manchester. Both spoke eloquently of their experience of engaging with the Be Well service. They articulated the circumstances which led them to engage with the service and the range of positive outcomes that they had achieved as a result. The Chair on behalf of the Committee thanked both contributors for attending the meeting and sharing their experiences.

Some of the key points that arose from the Committee's discussions were: -

- Recognising the important work of the Be Well service and paying tribute to all of the staff involved;
- What work was being done to support BAME residents;
- Noting that the number of males accessing the Be Well service was relatively low and what was being done to address this;
- Were Coaches Trauma Informed trained and how would they support an individual who was neurodivergent (defined as differing in mental or neurological function from what was considered typical or normal);
- Stating that the term 'disparities' should not be used when referring to health outcomes, adding that the term 'inequalities' was the preferred term and this was supported by Professor Michael Marmot;
- Noting that from April 2020, 10 of Manchester's 14 PCNs had made formal arrangements for Big Life Group to employ and manage their social prescribing link workers, how would the patients of the 4 that had not made the formal arrangement access social prescribing opportunities;
- The importance of a wider understanding of social prescribing across other services: and
- Concern about access to mental health services in the city and, while welcoming the benefits of social prescribing, commenting that it was important that this was not used to cover up gaps in mental health provision.

Jay Patient, Be Well Service Manager, Big Life Group advised that there were many positive examples of where informal support groups had been developed that had built upon local connections and resilience, making particular reference to the South Asian Woman's Group in Longsight. She further clarified that the data in the presentation for the number of referrals for Central and South were combined. In regard to the point raised regarding the relatively lower number of male referrals to the service she advised this was recognised and consideration was being given as to how best promote this service and target the male audience. She further added that they would review the literature that was provided to encourage the take up amongst the male population. The Consultant in Public Health Medicine commented that this gender disparity was reflected across the wider health service and this was not unique to the Be Well service.

Jay Patient, Be Well Service Manager, Big Life Group further advised that the Coaches were from a wide variety of different professional and ethnic back grounds with a broad skills set. She stated that they were Trauma Informed trained. She

added that they had established relationships with specialist providers and services to refer anyone who was identified as neurodivergent to ensure that they were signposted to the most appropriate source of support.

The Consultant in Public Health Medicine stated that people could be referred to the Be Well service from other services and not just GPs, adding that the 4 PCNs that had not made formal arrangements for Big Life Group could still refer a patient if they felt it was appropriate. She further commented that it was anticipated that referrals to and demand for this service would increase, noting the impact of the pandemic and other recent global issues on people's mental health. She stated that consideration needed to be given to how this service could be commissioned in future years and build upon the success reported. She reported that a Mental Wellbeing Strategy would be developed during the year, looking at what could be done to support people's mental health outside of clinical mental health services. She advised that a lot of other things could be done to improve mental health, including for people who had clinical anxiety or depression, in addition to ensuring that the clinical mental health services were available where these were needed, noting that some people would benefit from both social prescribing and talking therapies.

In concluding this item of business, the Chair reiterated the Committee's appreciation to all of the invited guests for attending the meeting and sharing their personal experiences. She stated that the Committee would be inviting a future update report on the service with particular reference to any environmental programmes that were offered, noting the important relationship between green spaces and mental health.

Decision

To note the report and presentation and recommend that a future update report is added to the Committee's Work Programme for consideration at an appropriate time.

HSC/22/16 The Gorton Hub

The Committee considered the report of the Strategic Lead Neighbourhoods, Sarah Lake, Integrated Neighbourhood Lead for Gorton and Levenshulme (MLCO) and the Head of Corporate Estate and Facilities Management that provided an update on the Gorton Hub, a new Health and Care Hub in the heart of Gorton.

The Hub would provide a real opportunity to make a significant improvement in the management and delivery of public services through co-location and integration within a modern, innovative and efficient environment.

Key points and themes in the report included:

- Describing how the Hub would provide an opportunity to make a significant improvement in the management and delivery of public services through co-location and integration within a modern, innovative and efficient environment;
- Progress with the partnership working underpinning the integration of services in the Hub;
- Construction and property update; and
- Noting that the Hub was due to open in October 2022.

Some of the key points that arose from the Committee's discussions were: -

- What areas would this provision serve and would all elected Members concerned be regularly informed regarding the development of this site;
- How would the success of this model of service delivery be assessed; and
- This positive model needed to be replicated across the city.

The Strategic Lead Neighbourhoods advised that this site would serve residents from the Gorton, Longsight, Levenshulme and Clayton & Openshaw wards, adding that meetings with those ward Members would be convened. He advised that the success of this development would be assessed across three strands, first being a range of Key Performance Indicators to be agreed to measure progress against wider health deterrents, the second against improvements in bringing partners together in the Hub, and third, the benefits realised through the land released from the colocation of services. He stated that this would be reported to the Committee at the appropriate time along with a general update on the delivery of the Hub.

The Committee heard from Councillor Reid, Ward Councillor for Gorton and Abbey Hey. She provided a background to the development and the challenges that were presented as a result of the pandemic. She reassured the Committee that despite this and other challenges the site was being progressed with very positive relationships being established with all the multi-agency partners who would eventually occupy the site. She stated that she supported a recommendation that the Committee continue to receive regular progress reports on this project.

Decision

To note the report and recommend that a future update report is added to the Committee's Work Programme for consideration at an appropriate time.

HSC/22/17 Overview Report

The report of the Governance and Scrutiny Support Unit which contained key decisions within the Committee's remit and responses to previous recommendations was submitted for comment. Members were also invited to agree the Committee's future work programme.

The Chair recommended that other than the Covid-19 update report the May 2022 meeting would be dedicated to the annual Work Programming Session.

Decision

The Committee notes the report and agrees the work programme, noting the above comment.

**Manchester City Council
Report for Information**

Report to: Health Scrutiny Committee – 25 May 2022

Subject: Covid-19 and Vaccination Programme Update

Report of: Director of Public Health, Manchester City Council

Summary

At the March 2022 meeting of the Committee, the final draft of the Living Safely and Fairly with Covid plan was presented. The Plan highlighted the ambition to build a local resilient health protection system for the city, learning from the Covid-19 pandemic.

A presentation on progress will be provided to the Committee, along with the latest available data on Covid-19 vaccination uptake and the Spring/Summer vaccination plan.

Recommendations

The Committee are asked to note the report and presentation.

Wards Affected: All

Environmental Impact Assessment - the impact of the issues addressed in this report on achieving the zero-carbon target for the city

Manchester Strategy outcomes	Summary of how this report aligns to the OMS
A thriving and sustainable city: supporting a diverse and distinctive economy that creates jobs and opportunities	As we move into the recovery phase of the Pandemic there is a recognition that Covid-19 has had a disproportionate impact on certain communities in our city. As part of Building Back Fairer we will address the health inequalities that have been exacerbated by the Pandemic and the Living Safely and Fairly with Covid-19 Plan, approved by the Council Executive in March 20 sets out how we will build a local health protection system that reflects the OMS outcomes.
A highly skilled city: world class and home grown talent sustaining the city's economic success	
A progressive and equitable city: making a positive contribution by unlocking the potential of our communities	
A liveable and low carbon city: a destination of choice to live, visit, work	

A connected city: world class infrastructure and connectivity to drive growth

Name: Lee Walker
Position: Scrutiny Support Officer
Telephone: 0161 234 3376
E-mail: lee.walker@manchester.gov.uk

Background document (available for public inspection): None

1. Monitoring Previous Recommendations

This section of the report contains recommendations made by the Committee and responses to them indicating whether the recommendation will be implemented, and if it will be, how this will be done.

Date	Item	Recommendation	Response	Contact Officer
8 December 2021	HSC/21/52 Suicide Prevention Local Plan	The Committee recommend that consideration is given to Manchester contributing to the Greater Manchester pilot for the collection of key 'real time' data co-ordinated by the Greater Manchester Suicide Prevention lead.	This recommendation has been forwarded for consideration. Any reply will be reported to the Committee via the Overview Report.	David Regan
8 December 2021	HSC/21/53 Our Manchester Carers Strategy Update	The Committee recommend that the Deputy Leader consider the options to maintain the Carers Emergency Fund.	This recommendation has been forwarded for consideration. Any reply will be reported to the Committee via the Overview Report.	Councillor Midgley, Deputy Leader

2. Key Decisions

The Council is required to publish details of key decisions that will be taken at least 28 days before the decision is due to be taken. Details of key decisions that are due to be taken are published on a monthly basis in the Register of Key Decisions.

A key decision, as defined in the Council's Constitution is an executive decision, which is likely:

- To result in the Council incurring expenditure which is, or the making of savings which are, significant having regard to the Council's budget for the service or function to which the decision relates, or
- To be significant in terms of its effects on communities living or working in an area comprising two or more wards in the area of the city.

The Council Constitution defines 'significant' as being expenditure or savings (including the loss of income or capital receipts) in excess of £500k, providing that is not more than 10% of the gross operating expenditure for any budget heading in the in the Council's Revenue Budget Book, and subject to other defined exceptions.

An extract of the most recent Register of Key Decisions, published on **16 May 2022**, containing details of the decisions under the Committee's remit is included below. This is to keep members informed of what decisions are being taken and, where appropriate, include in the work programme of the Committee.

Decisions that were taken before the publication of this report are marked *

There are no Key Decisions currently listed within the remit of this Committee.

3. Items for Information

3.1 The Health Scrutiny Committee response to the draft 2021/2022 Quality Accounts submitted by the Greater Manchester Mental Health NHS Foundation Trust. This reply was emailed to the Trust 13 May 2022.

Dear Greater Manchester Mental Health NHS Foundation Trust,

As Chair of Manchester City Council's Health Scrutiny Committee, I would like to thank you for the opportunity to comment on your Trust's Draft Quality Account for 2021/22. Copies of the draft quality account were circulated to members of the committee for consideration and comments received have been included below. We would like to submit the following commentary to be included within your final published version.

The Committee recognise the unprecedented challenge that the COVID-19 pandemic continues to place on the Trust and we would firstly like to take this opportunity to express our sincere gratitude and appreciation to all of the staff working at the Trust, both frontline and back office, for their continued professionalism and dedication to ensuring services and care continues to be delivered to patients. The Committee would be grateful if this appreciation could be communicated to all staff.

We acknowledge that the opening welcome statement from the Chief Executive recognises and praises the continued commitment and professionalism demonstrated by staff throughout the year and it sets a tone of directness and transparency throughout the draft Quality Account. The statement clearly identifies the many key achievements over the previous twelve months and describes the priorities for the coming year, providing a clear commitment to continued service improvement.

The Committee welcomes the consistent, clear and concise reporting method throughout the report that identifies projects, actions and outcomes against the priorities agreed for 2021/22 across a range of activities. The report clearly describes to the reader how the Trust is performing against national standards and a useful narrative is provided to assist the reader. Throughout the report Next Steps and Key Actions for 2022/23 are clearly listed and described. The Committee further commented that the inclusion of a glossary of terms that had been provided within the report is useful to assist the lay reader to understand the document.

The Committee acknowledge and welcome the outcomes of the National Patient Survey of community mental health services that reported that the Trust had scored highest in relation to how you organise care for service users in the community. The Committee welcome the stated commitment that throughout 2022/23, you will continue with your efforts to ensure that you will do everything you can to improve outcomes, deliver the safest care and integrate services around the service users, with the commitment that you

will do this within a culture of quality and continuous improvement. We further note and welcome the establishment of the Quality Improvement Committee and the Quality Improvement Operational Delivery Group to deliver and monitor this important area of activity, including the provision of high-quality training for all staff.

A key and important theme identified for specific attention by the Health Scrutiny Committee over the previous year has been the work undertaken across all partners to respond to and address health inequalities that existed and have been brought into sharp focus by the COVID-19 pandemic. The Committee particularly welcome the Trust's stated commitment to Equality, Diversity and Inclusion, noting the Trust's participation in a national pilot scheme and that this work and the Advancing Equalities Strategy 2022-25 are to be embedded across all areas of work of the Trust. We endorse your stated commitment to reduce variation and inequalities, with particular reference to reducing health inequalities by working with community partners and experts by experience to co-produce inclusive integrated services to improve outcomes.

At our meeting of January 2022, the Committee considered a report and presentation that described the plans to deliver a new, fit for purpose adult mental health unit for patients at North Manchester General Hospital and we welcome the news that it is anticipated that this new facility will be built and operational by 2024. We the Committee fully support and endorse the reprovision of Park House. In particular we were pleased to learn at our January meeting that service users had been consulted with and closely involved with the design of the new facility.

In conclusion, we the Committee would like to take this opportunity to reiterate our gratitude and appreciation to all staff at the Trust for their continued hard work and dedication to improving the mental health outcomes of Manchester residents. As in previous years the Health Scrutiny Committee have welcomed the opportunity to hear from invited representatives from the Trust who had attended our meetings to discuss with Members the delivery of mental health services in Manchester. Noting the significant detrimental impact that COVID-19 has had on mental health, the Committee will look to schedule a further discussion on this important area of work at a meeting in the new municipal year.

Yours sincerely,

Councillor Joanne Green
Chair of the Health Scrutiny Committee
