**Application reference: 124094/FO/2019 - Hill Quays, 1 Jordan Street,
Manchester, M15 4QU**

Objections

An additional objection notes that lifts and communal areas are already very busy and lifts are very slow so with more people there will be longer wait times. It is already almost impossible to recycle because of the lack of space for cardboard. The ventilation fans are functional, but incredibly noisy for people living on the end of block A. Nothing appears to be being done about this and it isn't acceptable that this side will suffer more, because of even more apartments. Reasonable steps won't be taken to protect the existing tenants from construction noise / workers. Across the city noise laws are breached in construction and nobody ever does anything about it.

Director of Planning

The above issues have already been considered in the published report.
