

Dear sir/Madame

I would like to make all parties and members of the public to whom have objected to my application for a premises licence aware of what i would like to achieve by having this licence

I would like to offer an alternative to a hot drink in the way of a glass of bottled beer/glass of wine/Irish coffee to customers who are sat in ordering food and to customers who have just finished eating food .

I would like to have light background music playing via a radio or cd player without amps or outside music no more than i have had for the past 18 months to which i have not had one complaint.

I would like to open later on a Thursday, Friday, and Saturday to serve grill type food for both eat in and takeaway via collection or/and a delivery partner. At this moment in time 3 off the shops on the parade open until 11.00pm Sams pizza , raja brothers general store and Rockies takeaway newly opened this week. i however do not believe that my cafe being open serving alcoholic drinks will in any way cause a nuisance to the local residents or encourage youths to gather on the front there is cctv covering the front of all the shops monitored by i think Manchester city council which i believe to be a deterrent from this anti-social type of behaviour I believe that it will be a nice friendly place for local people to relax and enjoy good food in a nice warm atmosphere . we have a maximum capacity of 5 4-seater tables and 1 2-seater bar type round table. I am happy to comply with all recommendations from the 4 relevant parties and fully support the 4 licensing objectives

With Regards

**Anthony Baker
