	Manchester has been allocated £2.581m in November a COVID winter grant. A minimum of 80% of this grant must be spent on families with children. The grant covers the period from 1 st December to 31 st March 2021. This will be used to provide support with food, energy, essential items for c43,000 children and young people over the Christmas holidays and February half term holiday.		
What is the decision?	 The allocation of the grant would support the following priorities £1.9m to be allocated to provide supermarket vouchers to be distributed through schools and settings for children and young people eligible for benefit related free school meals and other children in identified groups. Up to £150k to be allocated as a grant to Colleges in Manchester to enable them to develop a scheme for young people who were previously on FSM. £24.5k to be allocated for to support care leavers with food. £264k to be allocated to Early Years/Early Help service £132k to be allocated to Food Response team for adult only households. An urgent decision is required due to the tight timescales to meet the ambition of providing support over Christmas break for c41,000 children and young people who would normally access food at school/setting or college during term time. This will involve the commissioning and procurement of a significant number of food vouchers from key supermarkets to provide a reach across the city. The timescale from procurement to distribution which will be via schools is exceptionally tight in order to reach vulnerable families by end of school term (18/12/20). Is exemption from call-in for scrutiny needed? Explain how any delay will seriously prejudice the legal or financial position of the Council A delay will compromise the Council's legal position by not meeting the expectations in the grant conditions and not support vulnerable families. This may lead to a surplus which would be returned to central government.
