1.0 Introduction

- 1.1 This report details proposed changes to the remit of some of the Council's Scrutiny Committees, following consideration of a petition entitled "*Respond to climate change with more democracy and more money*" by the Resources and Governance Scrutiny Committee in February 2021.

2.0 Background

- 2.1 An online petition was submitted to the Council on 10 February 2020, via the Council's website, entitled "*Respond to climate change with more democracy and more money*". The petition asked the following of the Council:-

"We the undersigned petition the Council to Establish a permanent "Climate and Environment Scrutiny Committee", of equal standing to the existing 6 scrutiny committees and Make strenuous efforts to secure additional funding for climate action, including the use of some of its strategic reserves."

- 2.2 The online petition closed on 10 November 2020 and received 771 signatories of support. In addition, the Petition organiser also submitted a physical petition to Council Offices containing a further 989 signatories of support. This totalled 1760 signatures.
- 2.3 In accordance the Council's petition scheme, the petition was considered by the Resources and Governance Scrutiny Committee as the two aspects of the petition related to Council financial and non financial resources.

3.0 Outcome of Consideration of the petition at Resources and Governance Scrutiny Committee

- 3.1 The points raised by the petition and comments made by the petition representative at the Scrutiny Meeting were in the main, supported by both the Council's Executive and the members of the Scrutiny Committee.
- 3.2 It was acknowledged that the Council only accounted for approximately 2% of the city's emissions and had no statutory powers to require other parts of the city to act or scrutinise them. It was also noted that it was the responsibility of every part of the Council to make a contribution to tackle climate change.
- 3.3 It was recognised that the demands on the current Neighbourhood and Environment Scrutiny Committee were too high to allow sufficient consideration of climate emergency. Appendix 1 details the current remit of the Council's Scrutiny Committees.
- 3.4 Accordingly, it was proposed and endorsed that the balance of the Council's Scrutiny Committee remits should be reviewed, in order to free up capacity for Neighbourhoods and Environment Scrutiny Committee to give more time to scrutiny of climate change and zero carbon. Appendix 2 details the proposed revised remit of the Council's Scrutiny Committees .

- 3.5 It was envisaged that these proposals would negate the need to establish a 7th Scrutiny Committee.
- 3.6 It was also suggested that in addition to the realignment of scrutiny remits, the Council renamed the current Neighbourhood and Environment Scrutiny Committee to Environment and Climate Change Committee, which would be the main committee to scrutinise issues such as environmental integrity, climate change, biodiversity and flooding.
- 3.7 It was also recognised that tackling climate change continues to be a cross-cutting priority for the Council and all of its committees, and that other Scrutiny Committees should continue to scrutinise climate change issues in relation to matters that fall within their terms of reference.

4.0 Recommendations

- 4.1 The recommendations are set out at the beginning of this report.
