Younger older people (60-79 yrs)	60	103.8	31	106.9%
Older people (80+ years)	7	52.4	4	133.3%
Total (All ages)	1,913	346.0	174	10.0%

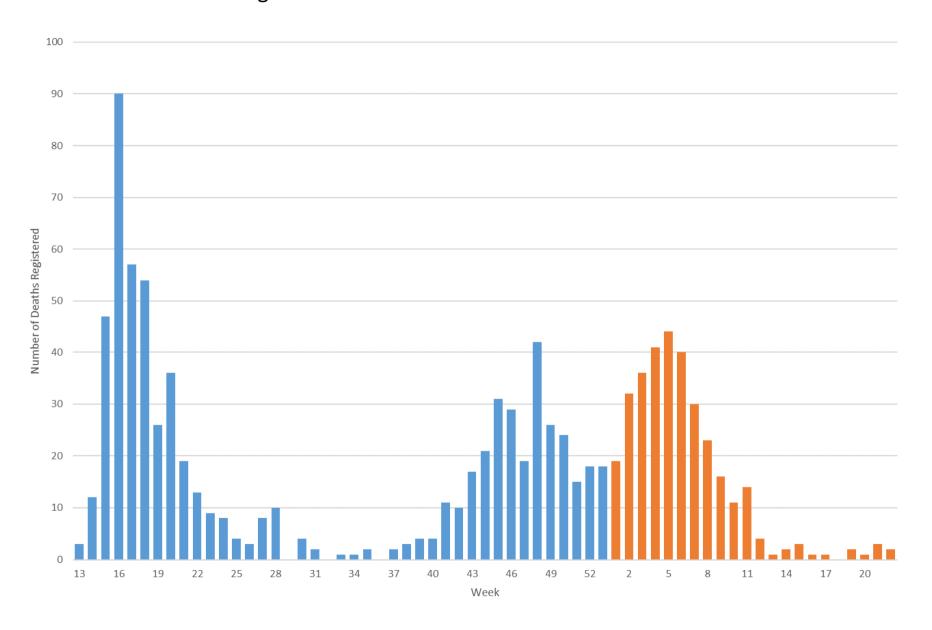

^{*} Compared with prior 7-day period 05/06/2021 to 11/06/2021

Daily number of confirmed COVID-19 cases over time and 7-day rolling average in persons aged 60 and over in Manchester by specimen date (1 December 2020 to 18 June 2021)

Data for the most recent 3 days (16-18 June) is provisional and subject to change

Total Number of Deaths Involving COVID-19 per Week in Manchester Residents Deaths registered between Week 13 2020 and Week 22 2021

Manchester enhanced response area plan

- Manchester enhanced response area plan has been produced in response to the Government announcement on 8th June that Greater Manchester would be given this designated status
- The Manchester plan will focus on the following:
- 1. Targeted vaccination drive
- 2. Targeted communications and engagement
- 3. Identifying and breaking chains of transmission (testing, contact tracing and support to self isolate)
- 4. Additional measures
- 5. Mitigating the risk of transmission in Universities

COVID-19 Vaccination programme update

23 June 2021

Summary

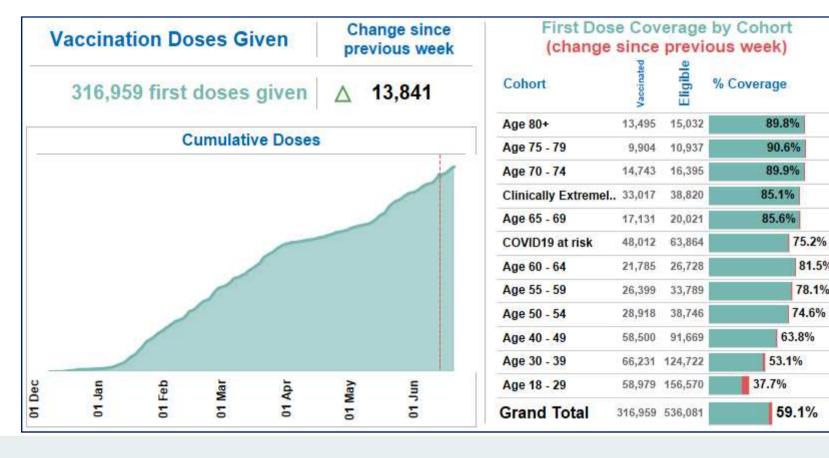

- Covid-19 vaccination coverage continues to increase rapidly in Manchester with 316,959 people having received the first dose of the vaccine as at 20 June 2021. Of this number, 194,976 have now received a second dose as well.
- This means that the vaccine programme has already delivered well over **500,000** jabs to local people. The programme focus is on vaccinating as many local people as possible whilst ensuring no communities in the city are being left behind.
- Partnership working remains at the heart of the programme with Community Pharmacy MHCC, MCC, MFT and MLCO working together, supported by c. 3000 local people who have volunteered to play their part. We are also engaged with both regional and GM teams.
- Delivery of the vaccine programme continues to be through a combination of primary care sites, pharmacy sites, the GM Mass Vaccination Centre, and a range of 'pop-up' and 'walk-in' clinics in locations across Manchester.
- For the next 4 weeks, we are further boosting our vaccination programme to meet the current challenges we are facing with the Delta variant. This will include two new temporary vaccination sites set up in Moss Side and Belle Vue.

First dose vaccine coverage as at 20 June 2021

81.5%

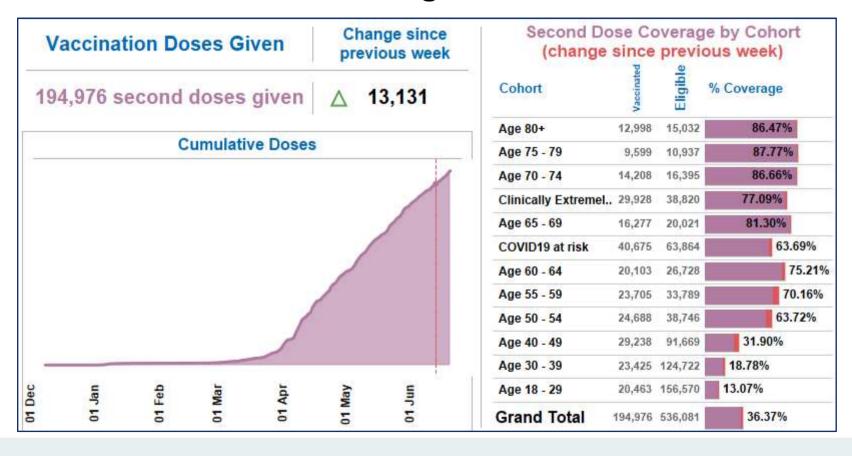

78.1%

Second dose vaccine coverage as at 20 June 2021

Targeting inequalities – Cohorts 1 - 12, last 8 weeks

We aim for there to be no difference in coverage between white patients and those patients of other ethnic backgrounds. The table below tracks the difference, with a lower difference highlighting greater equality.

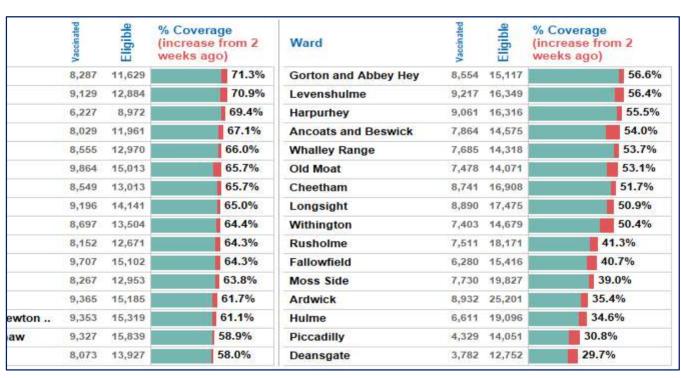

Ethnicity	Difference in Coverage from White Patients: 04 Jun	Difference in Coverage from White Patients: 18 Jun	Change	
White and Asian	17.9%	16.7%	-1.1%	
Declined to provide ethnicity status	18.1%	18.3%	0.2%	
Bangladeshi	2.5%	2.7%	0.2%	
Any other ethnic group	27.1%	27.3%	0.3%	
Indian	9.7%	10.1%	0.5%	
Any other Mixed or Multiple ethnic background	25.0%	25.5%	0.5%	
White and Black African	23.4%	23.9%	0.6%	
Any other Asian background	21.2%	21.9%	0.6%	
Pakistani	7.7%	8.8%	1.1%	
Chinese	39.0%	40.2%	1.2%	
Arab	22.2%	23,4%	1.2%	
African	16.8%	18.4%	1.6%	
No record of ethnicity status	33.8%	35.5%	1.7%	
White and Black Caribbean	26.6%	28.3%	1.8%	
Any other Black, African or Caribbean background	24.8%	26.7%	1.9%	
Caribbean	18.5%	21.9%	3.4%	

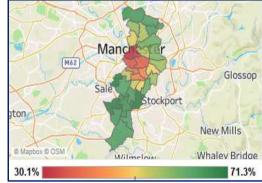

Coverage by electoral ward – Cohorts 1- 12, 20 June 2021

Manchester GP records have been used to identify addresses. Ward residents not registered with a Manchester practice will therefore not be included in these figures

As a result of the way people have been vaccinated in order of age, wards with a younger population be showing lower coverage rates.

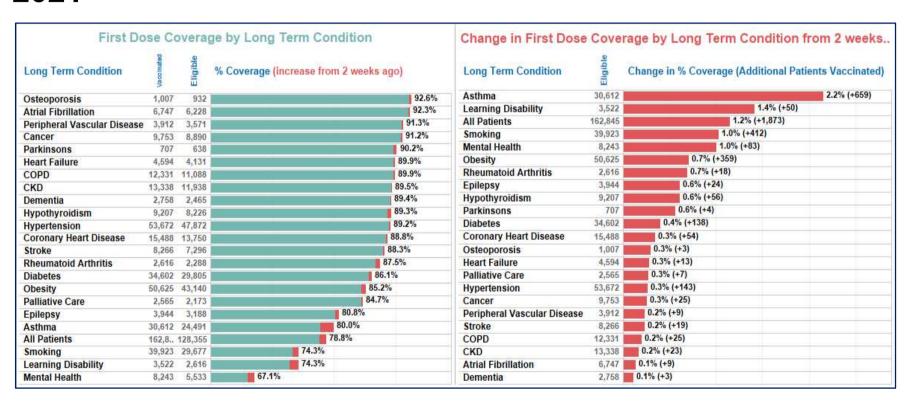

Coverage by Long Term Condition— Cohorts 1- 6, 20 June 2021

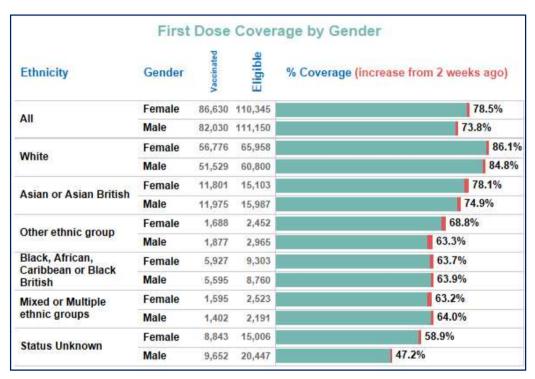

Coverage by gender and target group— Cohorts 1- 12, 20 June 2021

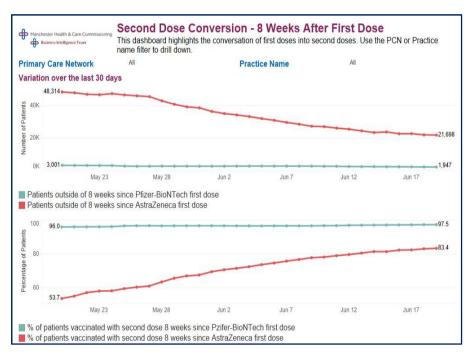

Second dose conversion – 8 weeks after first dose

Ethnicty	% of patients vaccinated with Second Dose 8 weeks after First Dose		Patients not receiving Second Dose 12 weeks after First Dose			
	AZ	Pfizer	Total	AZ	Pfizer	Total
Grand Total	83.4%	97.5%	88.6%	21,698	1,947	23,645
Any other Black, African or Caribbean background	75.0%	96.4%	81.3%	355	21	376
Pakistani	77.1%	94.2%	81.6%	2,938	262	3,200
Arab	77.8%	96.1%	82.5%	166	10	176
White and Black African	76.8%	96.8%	82.7%	169	10	179
White and Black Caribbean	76.6%	95.8%	82.8%	153	13	166
African	76.4%	95.9%	82.9%	1,485	127	1,612
Any other ethnic group	77.6%	96.9%	83.2%	645	36	681
Any other Asian background	77.9%	96.7%	83.7%	586	39	625
