

**Manchester City Council
Report for Information**

Report to: Environment and Climate Change Scrutiny Committee – 22 July 2021

Subject: Climate Change Action Plan Quarterly Progress Report: Q1 April - June 2021

Report of: The Deputy Chief Executive and City Treasurer

Summary

The Council declared a Climate Emergency in July 2019 and developed a Climate Change Action Plan 2020-25, which was approved by Executive in March 2020. This report provides an update on the progress that has been made in delivering the Plan over the last 3 months (April – June 2021).

Recommendations

It is recommended that the Environment and Climate Change Committee note and comment on the progress that has been made in delivering the Climate Change Action Plan during this quarter.

Wards Affected: All

Environmental Impact Assessment - the impact of the issues addressed in this report on achieving the zero-carbon target for the city

The Council's Climate Change Action Plan 2020-25 sets out the actions that will be delivered to ensure that the Council plays its full part in delivering the city's Climate Change Framework 2020-25 which aims to half the city's CO2 emissions over the next 5 years.

Manchester Strategy outcomes	Summary of how this report aligns to the OMS
A thriving and sustainable city: supporting a diverse and distinctive economy that creates jobs and opportunities	The transition to a zero carbon city will help the city's economy become more sustainable and will generate jobs within the low carbon energy and goods sector. This will support the implementation of the Our Manchester Industrial Strategy and Manchester Economic Recovery and Investment Plan.

A highly skilled city: world class and home grown talent sustaining the city's economic success	Manchester is one of a small number of UK cities that have agreed a science-based target and is leading the way in transitioning to a zero carbon city. It is envisaged that this may give the city opportunities in the green technology and services sector.
A progressive and equitable city: making a positive contribution by unlocking the potential of our communities	Transitioning to a zero-carbon city can help to tackle fuel poverty by reducing energy bills. Health outcomes will also be improved through the promotion of more sustainable modes of transport and improved air quality.
A liveable and low carbon city: a destination of choice to live, visit, work	Becoming a zero carbon city can help to make the city a more attractive place for people to live, work, visit and study.
A connected city: world class infrastructure and connectivity to drive growth	A zero carbon transport system would create a world class business environment to drive sustainable economic growth.

Manchester Climate Change Framework 2020-25

1.0 Introduction

This is a progress update on delivery of the council's climate change action plan for Quarter 1 2021-22 (Apr-Jun 2021).

The Progress Report has been to the Zero Carbon Coordination Group to ensure its accuracy and for transparency will be published in an accessible format on the Council's website.

2.0 Background

A five-year Climate Change Action Plan (CCAP) 2020-25 went live following approval at Executive in March 2020.

Updates have been considered by Strategic Management Team and Neighbourhoods & Environment Scrutiny Committee throughout the CCAP's first year, with a detailed progress report going to Neighbourhoods & Environment Scrutiny Committee on the 10 February this year. [Agenda for Neighbourhoods and Environment Scrutiny Committee on Wednesday, 10th February, 2021, 2.00 pm \(manchester.gov.uk\)](#)

The quarter four (January-March 2021) report is on the council's website and can be found [here](#) and an annual report will follow in September.

Following the establishment of the new Environment and Climate Change Scrutiny Committee, regular updates on delivery of the CCAP will be provided via the Quarterly Progress Reports, which have been scheduled into the Committee's work programme for the current year.

3.0 Recommendations

It is recommended that the Environment and Climate Change Scrutiny Committee note and comment on the progress that has been made in delivering the Climate Change Action Plan during this quarter.
