Manchester enhanced response area action plan

Manchester was designated as an enhanced response area on 8th June 2021. The Government is currently reviewing this status and there will be a formal communication to the Council and all Greater Manchester Authorities later this week. However, Manchester will continue to implement the area action plan throughout August covering the following five workstreams:

1. Targeted vaccination drive
2. Targeted communications and engagement
3. Identifying and breaking chains of transmission (testing, contact tracing and support to self isolate)
4. Additional measures
5. Mitigating the risk of transmission in Universities
