Older people (80+ years)	16	122.3	-30	-65.2%
Total (All ages)	**1,541**	**277.3**	**-208**	**-11.9%**

* Compared with prior 7-day period 18/08/2021 to 24/08/2021

Ethnicity specific 7-day rolling case rates per 100,000 population in Manchester (4 August to 31 August 2021)

Excluding 3.5% ethnicity data classified as Na or Unknown.
Where text is red rates should be interpreted with caution as underlying case numbers are <5.

As of 26/05/2021 an issue with denominators for the categories Black African and Other Black has been corrected.
Note: The red dashed line denotes the 4 most recent days that are subject to reporting delays

Total Number of Deaths Involving COVID-19 per Week in Manchester Residents
Deaths registered between Week 13 2020 and Week 33 (20 August) 2021

Total Number of Deaths and Deaths Involving COVID-19 reported to CQC by Care Homes in Manchester (7-days ending 8 January to 27 August 2021)

Our Twelve Aims

Our Twelve Point Action Plan has been updated regularly since August 2020 and mirrors the national and Greater Manchester approach, with a focus on the following aims:

1. Support early years, schools and colleges to remain open and operate as safely as possible, using effective infection control measures, testing, management of outbreaks and vaccination where appropriate. Ensure universities and other higher education settings remain open and operate as safely as possible using effective infection control measures, testing, management of outbreaks in campuses and student accommodation and vaccination where appropriate

2. Protect the city's most vulnerable residents by reducing and minimising outbreaks in care homes and other high risk residential settings, including prisons

3. Support workplaces and businesses to operate as safely as possible, using compliance measures and enforcement powers where necessary. Support work to keep our border safe at Manchester Airport

4. Facilitate the recovery of the city by supporting the shift from regulatory to voluntary guidance for events, leisure and religious celebrations

5. Ensure the needs of people and communities that are high risk, clinically vulnerable or marginalised are prioritised and addressed within the broader COVID response

6. Co-ordinate communications activity to enable Manchester residents to live safely with COVID and make informed decisions, including around vaccination

7. Deliver targeted community engagement that supports wider aims and objectives, ensuring that appropriate and culturally sensitive approaches are taken

8. Ensure that decisions in respect of the direct response to COVID-19 and the wider recovery programme are informed consistently by high quality data and intelligence

9. Continue to deliver the community testing model, with a focus on testing becoming part of 'living with COVID' and on underrepresented and disproportionately impacted groups

10. Identify local cases of COVID early and provide a rapid response though effective contact tracing and outbreak management

11. Ensure residents comply with any legal instruction to self-isolate and have the support to enable them to do so

12. Work with the NHS locally to drive up vaccination rates among those groups with lower uptake, ensure second vaccinations are administered and support the roll out of booster vaccinations
