1. Monitoring Previous Recommendations

This section of the report contains recommendations made by the Committee and responses to them indicating whether the recommendation will be implemented, and if it will be, how this will be done.

There are no outstanding previous recommendations.

2. Key Decisions

The Council is required to publish details of key decisions that will be taken at least 28 days before the decision is due to be taken. Details of key decisions that are due to be taken are published on a monthly basis in the Register of Key Decisions.

A key decision, as defined in the Council's Constitution is an executive decision, which is likely:

- To result in the Council incurring expenditure which is, or the making of savings which are, significant having regard to the Council's budget for the service or function to which the decision relates, or
- To be significant in terms of its effects on communities living or working in an area comprising two or more wards in the area of the city.

The Council Constitution defines 'significant' as being expenditure or savings (including the loss of income or capital receipts) in excess of £500k, providing that is not more than 10% of the gross operating expenditure for any budget heading in the in the Council's Revenue Budget Book, and subject to other defined exceptions.

An extract of the most recent Register of Key Decisions, published on **26 August 2022**, containing details of the decisions under the Committee's remit is included below. This is to keep members informed of what decisions are being taken and, where appropriate, include in the work programme of the Committee.

Decisions that were taken before the publication of this report are marked *

There are no Key Decisions currently listed within the remit of this Committee.

3. Vaccination and COVID-19 Update

Cases of Covid-19, driven by the Omicron variants BA.4 and BA.5, have continued to decline in the most recent reporting period according to the Office of National Statistics (ONS). As a result of this routine asymptomatic testing in health and care settings has been paused, however, patients being discharged from hospitals to care homes and other settings (e.g. hospices) will continue to be tested. Finally in Manchester plans are well underway for the delivery of the autumn/winter Covid booster alongside the annual flu vaccine.

In advance of Manchester Pride a Monkeypox vaccination programme was successfully delivered, despite limited national supplies. The programme included a number of weekend clinics throughout August and on Thursday 25th August a pilot clinic delivered the vaccine through intradermal injections to over 120 people. This means that over 2200 people eligible in Greater Manchester have received their vaccine and the Northern Sexual Health Service and Vaccination Team at Manchester Hospitals NHS Foundation Trust (MFT) have delivered the majority of these. The pilot enabled the limited supply to be maximised with one vial able to be used for four people instead of one. A further clinic will take place using this method. It is hoped that national supplies will be available at the end of September to allow the programme to be completed.
