Background document (available for public inspection): None

1. Monitoring Previous Recommendations

This section of the report contains recommendations made by the Committee and responses to them indicating whether the recommendation will be implemented, and if it will be, how this will be done.

Date	Item	Recommendation	Action	Contact Officer
7 September 2022	HSC/22/35 Adverse Childhood Experiences (ACEs) and Trauma Informed Practice	Recommend that the Adverse Childhood Experiences & Trauma Informed Practice training is mandatory for all Councillors.	The recommendation has been forwarded to Councillor Midgley Deputy Leader.	Councillor Midgley Deputy Leader

2. Key Decisions

The Council is required to publish details of key decisions that will be taken at least 28 days before the decision is due to be taken. Details of key decisions that are due to be taken are published on a monthly basis in the Register of Key Decisions.

A key decision, as defined in the Council's Constitution is an executive decision, which is likely:

- To result in the Council incurring expenditure which is, or the making of savings which are, significant having regard to the Council's budget for the service or function to which the decision relates, or
- To be significant in terms of its effects on communities living or working in an area comprising two or more wards in the area of the city.

The Council Constitution defines 'significant' as being expenditure or savings (including the loss of income or capital receipts) in excess of £500k, providing that is not more than 10% of the gross operating expenditure for any budget heading in the in the Council's Revenue Budget Book, and subject to other defined exceptions.

An extract of the most recent Register of Key Decisions, published on **3 October 2022**, containing details of the decisions under the Committee's remit is included below. This is to keep members informed of what decisions are being taken and, where appropriate, include in the work programme of the Committee.

Decisions that were taken before the publication of this report are marked *

There are no Key Decisions currently listed within the remit of this Committee.

Vaccination and COVID-19 Update

Covid and Vaccination Update

The latest data from the national COVID-19 survey shows that the percentage of people testing positive for coronavirus (COVID-19) continued to increase in England and Wales. In England, it is estimated that 1.57% of the population (or round 1 in 65 people) tested positive for COVID-19.

The percentage of people testing positive for COVID-19 increased in the North West, Yorkshire and the Humber, the West Midlands, the East of England, London, and the South East. The positivity rate in England continued to increase in those in school Year 7 to school Year 11 and those aged 25 to 34 years. Infection rates in all other age groups also increased. Omicron variant BA.5 is estimated to be responsible for over 90% of all infections.

In the week ending 25 September 2022 hospital admissions increased to 7.62 per 100,000 people (particularly in the North West and East of England), although Intensive Care Unit admissions remained low at 0.25 per 100,000 people. This latest data highlights the importance of delivering the Manchester Autumn/Winter Vaccination Programme and the slide set summary of this is attached (See Appendix 1).

Monkeypox

It would appear based on early data that Manchester did not see a spike in Monkeypox cases as a result of Pride. The Public Health Team acknowledge that there was a degree of concern in the run up to this celebration but, through the success of the vaccination programme and the incredible response from the LGBTQ+ community, cases have remained under control and the number of new cases has reduced significantly since July. The autumn vaccine delivery schedule is currently being revised pending further guidance from the UK Health Security Agency.
