**Report of:** Director of Public Health

---

### Summary

As part of the statutory role of the Director of Public Health there is a requirement to produce an annual report on the health and wellbeing of the local population, highlighting key issues. The report can either be a broad overview of a wide range of public health programmes or may have a focus on a particular theme. This year the focus continues to be on the City's response to Covid-19, capturing our response during the second year of the pandemic. This report is a successor to the 2021 Annual Report, *The Manchester Difference*. The two are designed to be viewed together as a complete reflection on the most acute stages of the pandemic and the beginning of our efforts to recover, from January 2020 to August 2022.
