Appendix 1 - Savings Schedule

Service	Description of Saving	Type of	RAG Impact		Amount	of Saving		Indicative
		Saving		2023/24	2024/25	2025/26	Total	FTE
				£'000	£'000	£'000	£'000	Impact
Provider S	<u>ervices</u>							
Provider Services	Day Services - following the delivery of a day services review and associated findings, expand use of external capacity/focus on complex needs. This is intended to maximise the cost effectiveness of in-house day services by repositioning them to support citizens with more complex needs. This would mean reviewing people in expensive external day placements and moving them to in-house provision as well as reviewing people with low to moderate support needs in in-house provision and finding alternative provision in the community or with lower cost external providers (including VCSE as providers under contract).	Service Redesign	Limited impact on outcomes, consolidating model of care. Potential family dissatisfaction and complaints, engagement programme will be required This is part of a broader strategy to re-position day services as a whole and work by the transitions team and others to promote a range of options for people, including employment, facilitated by our strengthened supported employment offer	250	250	100	600	TBC
Provider Services	Day Services - reduce access for citizens in supported accommodation. Citizens in supported accommodation supported holistically within that setting in lieu of attending day care	Service Reduction	Limited impact on outcomes, consolidating model of care. Maybe family dissatisfaction and complaints	250	250		500	TBC
Provider Services	Short Breaks - this programme is intended to refocus in-house short breaks service through a new integrated MLCO offer to support emergency placements and supporting	Service Redesign	Risk of not having an offer in place to support in crisis situations. Significant challenge to make operational		250	100	350	TBC

Community Alarms Service	providers and public health so that the Charge does have an actual emphasis on Wellbeing. Through benchmarking, the highest rate of weekly wellbeing charges found is £40 per week. The lowest charge is £11 per week. The proposal is for a wellbeing charge of £5-10 per person per week Increase community alarms charge There is a requirement to reduce the cost of this service, which is a discretionary one. It is considered a better option to increase charges than remove or limit response. The proposal is to increase all charges by 50p a week in order to address the current 2022/23 overspend of £0.150m. To note there would need to be a very significant price increase to cover the	Income Generation	Impact on most vulnerable during cost of living crisis To note many local authorities have made similar changes	150			150	None
	full cost of this service which will continue to be provided at a significant residual subsidy (£0.600m)							
Demand Ma	nagement							
Directorate	Smoothing via Adult Social Care Reserve	Efficiency	None	2,275		(2,275)		None
Long Term Care	Further demand management – all care groups. This target has been set for 2025/26 and is therefore some time into the future. This is in addition to £10m identified in 2023/24 for demand	Efficiency	Prevent, reduce, delay through Better Outcomes, Better Lives remains the underpinning approach so should continue to have a					

management to support the existing budget gap. The target has been set on the basis that the programme has delivered evidenced demand reductions to date and that there will continue to be opportunities to improve E'000	Service	Description of Saving	Type of	RAG Impact		Amount	of Saving		Indicative
management to support the existing budget gap. The target has been set on the basis that the programme has delivered evidenced demand reductions to date and that there will continue to be opportunities to improve outcomes and independence of Manchester citizens and many of the Better Outcomes Better Lives arrangements will be fully embedded by then. There is notably an expectation that TEC and the move to digital will be further advanced and the whole care market will have developed further through the reform agenda. Within the MLCO work will have progressed to optimise care models and this will also be impacting. The Fair Cost of Care programme should enable			Saving		2023/24	2024/25	2025/26	Total	FTE
budget gap. Equipment and Adaptations	Disabled Facilities Grant (DFG) - Refinance assessment officers through DFG. In a case where an application is for DFG, the services and charges of an occupational therapist in relation to the relevant works are also specified for those purposes and can be considered as capital expenditure if included as part of the whole project costs of the adaptation. Whilst this normally applies to external capacity, consideration of DFG guidance is predicated on there being no substantive difference between using internal or external capacity for this purpose	Efficiency	Recharge of internal capacity to DFG includes a degree of audit risk	500			500	None
Learning Disability	Joint funding/CHC and improving joint commissioning. Of utmost importance is the right support from a clinical team having oversight of the citizens wellbeing and review responsibility for the package of care (a rights-based approach). There are a number of citizens within long term placements that are at or near the CHC threshold. The desired outcome includes an enhanced joint funding of packages and much more structured joint commissioning arrangements	Income Generation	Potential for tensions within partnership arrangements if not considered as an integrated opportunity. Improved outcome for citizens in terms of CHC care being non chargeable	250	500	750	1,500	None
