**Background documents (available for public inspection):**

The following documents disclose important facts on which the report is based and have been relied upon in preparing the report. Copies of the background documents are available up to four years after the date of the meeting. If you would like a copy please contact one of the contact officers above.

2022/23 Code of Practice on Local Authority Accounting in the United Kingdom.

## **1. Introduction and Background**

- 1.1. The Deputy Chief Executive and City Treasurer (Section 151 Officer) is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code). In preparing the Statement of Accounts, the Deputy Chief Executive and City Treasurer has to select suitable accounting policies and then apply them consistently and make judgements and estimates that are reasonable and prudent.
- 1.2. In line with best practice, this report presents the accounting policies that will be used in the preparation of the 2022/23 accounts. It also explains the requirement to include notes on critical accounting judgements and key sources of estimation uncertainty.

## **2. Accounting Policies**

- 2.1. The Council's accounting policies are the specific principles, conventions, rules and practices that are applied in the production and presentation of the annual Statement of Accounts. These accounting policies have to be disclosed as a note to the annual accounts.
- 2.2. The Council's accounting policies have been reviewed to ensure that they are all relevant to be used in the preparation of the 2022/23 annual accounts and are attached at Appendix 1.
- 2.3. The significant change to the accounting policies is the inclusion of a new policy relating to infrastructure assets (1.2.5). This was previously included within the property, plant and equipment policy.
- 2.4. The accounting treatment of infrastructure assets has been subject to considerable debate and as a result CIPFA / LASACC issued an update to the Code and Specifications for Future Codes for Infrastructure Assets following consultation. The revised accounting policy reflects the requirements of the Code update.
- 2.5. The International Financial Reporting Standards (IFRS) 16 Leasing implementation date was reviewed as part of the emergency consultation on the temporary changes to the accounting code for 2021/22 and 2022/23 accounts. The consultation proposal approved that the implementation date be deferred until 1 April 2024 for the 2024/25 accounts. However, both the 2022/23 and the 2023/24 Codes will allow for adoption as of 1 April 2022 or 2023. The Council has decided against early adoption of this standard.

## **3. Critical Accounting Judgements**

- 3.1. In accordance with International Accounting Standards and the Code, the Council is required to disclose those judgements that management have made in the processing of applying the Council's accounting policies that

have the most significant effect on the amounts recognised in the financial statements. The notes to the accounts contain details of the critical accounting judgements that have been made in completing the annual accounts. These are shown in Appendix 1.

- 3.2. The critical judgements taken include which schools' property, plant and equipment and Private Finance Initiative (PFI) related assets should be included on the Council's balance sheet, whether a property should be classed as an investment property, classification of financial assets within financial instruments, treatment of transactions within the Pooled Budget with the Manchester University NHS Foundation Trust (MFT), Lender Option Borrower Option (LOBO) Loans and whether an organisation should be included within the Council's group accounts.

#### **4. Key Sources of Estimation Uncertainty**

- 4.1. In preparing the annual accounts there are areas where estimates are made. These include:

- Revaluation of property, plant and equipment and investment properties,
- provision for business rate appeals based on claims received and previous experience of the outcome of appeals,
- the liability for future pension payments which is estimated by qualified actuaries.

- 4.2. The key sources of estimation uncertainty are shown in Appendix 1

#### **5. Recommendations**

- 5.1. The recommendations appear at the front of this report.
