

Appendix 1 - Savings Schedule

Service	Description of Saving	Type	RAG Impact				Total	FTE indicative impact
				2024/25	2025/26	2026/27		
Savings as agreed at 2021/22 budget setting								
Early Years	Early Years - A revised speech and language therapy pathway that maintains a commitment to early intervention and prevention and WellComm screening will be redesigned with our partners. Reductions were phased over three years; this is the final year.	Efficiency	Improving outcomes through more optimal approach to supporting Children		-100		-100	None
Savings as agreed at 2023/24 budget setting								
Children's Safeguarding	Managing Demand – Saving assumes that growth of placement numbers will be at a rate of 78 per annum across Looked After Children and Permanence placements, whereby average cost of placement is £25k.	Efficiency	Improving outcomes through more optimal approach to supporting Children	-3,000	-2,000		-5,000	None
	Mockingbird - Program nurtures the relationships between children, young people and foster families supporting them to build a resilient and caring community of six to ten satellite families called a constellation. The Mockingbird constellation builds links with other families and individuals important to the children's care plans and to resources in the wider community which can provide them with enhanced opportunities to learn, develop and succeed. This model has been applied elsewhere and has led to greater placement stability and carer retention. It is expected that over a three-year period 2 external residential placements and 4 external fostering placements can be avoided.	Efficiency		-219	-257		-523	None
	Use of Reserve – Reversal of one year use of reserves.	Use of Reserves		500			500	None
	Thriving Families - is a whole family, strengths-based approach to child protection. Work is undertaken by children's social workers, adult mental health practitioners, substance misuse and probation officers, working together as one team. Joint knowledge and expertise are used to assess the needs of the whole family, supplying services to meet those needs, and supporting parents to achieve sustained change for themselves and their children. There is empirical evidence that risks to children can reduce, reducing the need for children to come into care and requiring child protection planning. The cost benefit analysis shows that 22 placements can be avoided 2024/25 to 2025/26.	Efficiency		-500	-500		-1,000	None
Children's Safeguarding	Shared Care - It was found that an edge of care service supporting children who have a learning disability and/or autism is needed. The plan is to support six children, splitting the week between the children to ensure there is only three children at home at any one time. Where needed the service will offer outreach support to children's families. It will promote education, health, and activities. Clothing will be provided by the family, foster carer/guardian etc. Children will be collected dropped off, as well as transported to education on the days children are at the home. The plan is to develop and test this in in 2023/24. The savings proposal assumes cost avoidance of 4.5 external residential placements and a further 1.5 placement external fostering placements.	Efficiency	Improving outcomes through more optimal approach to supporting Child with Disability	-351	-351		-702	None

Children's Safeguarding	The Thriving Babies - Confident Parents Project is about promoting the health, wellbeing and safeguarding of children through working differently with their parents during pregnancy to improving outcomes for babies so they can thrive by having safe, stable, permanent homes, still being with their families and communities. The proof of concepts has been trailed and will be rolled out throughout the city. To date the program has worked with 118 cases, 110 babies have remained in the care of their family and 8 have become looked after - to date. The 118 primary care givers had previously 81 children removed from their care prior to working with Thriving Babies showing the complexity of this cohort. Numbers of babies taken into care across the city have reduced since the implementation of Thriving Babies in June 2021. Based on this evaluation and after taking account of savings proposals outlined it is proposed a further £200k savings can be made from the project, this equates to 15 internal foster care placements over the course of the year and a further 4.5 internal foster care placements thereafter.	Efficiency	Potential to improve outcomes through prevention	-90			-90	None
Education	School Crossing Patrols – There are 90 school crossing patrols. The patrols are rated red, amber, or green in terms of road safety. 21 are rated as red, 36 rated as amber and 33 rated as green. The Council undertook significant capital investment from 2018 to 2022 in total £6.18m. This work has led to eight crossing changing their rating to green. Council policy is that it funds staffing for red and amber locations. If a crossing location is green, or is regarded as green, the school is given the choice to fund the patrols costing £6k per year. Whilst School Crossing Patrols (SCP) are not a statutory service they are a key road safety measure. It is proposed that SCP are financed by the Road Parking and Bus Lane Penalties Reserve instead of Council budget on an on-going basis. In accordance with the reserve's conditions road safety measures can be charged to the reserve. Further capital support will be provided to support the investment in school crossing patrols to reduce the call on future reserves.	Efficiency	These savings have been identified as deliverable without impacting on delivery	-100	-286		-386	None
Children's Safeguarding	Early Help - the service's gross budget is £8.9m, it is funded by grant and Council budget. The grant supporting the service is set to increase by £2m, it will receive additional Family Hub (£1.5m) and Supporting Families grant (£0.5m) next year. This extra targeted investment has allowed services to be reviewed and streamlined to release £0.590m. Following a line-by-line review of the £0.550m of the proposed saving will be achieved through reducing contingencies built into the existing budget. £50k of 2023/24 saving will be achieved through the ending of a contract. This approach will not impact on service delivery or expected outcomes as savings are being made through service efficiencies.	Efficiency	These savings have been identified as deliverable without impacting on delivery	-160			-160	None

	Savings as agreed at 2023/24 budget setting						-3,920	-3,394		-7,314	
	Savings as agreed at 2024/25 budget proposals										
Directorate	Workforce Savings			Use of grants and reserves	These savings have been identified as deliverable without impacting on delivery		-222			-222	None

Childrens Services	External Residential Placements - Review of all external residential placements and development of internal provision will enable the Directorate to achieve 2024/25 Managing Demand saving and reduce spend by a further £2m.	Efficiency	Improving outcomes through more optimal approach to supporting Children	-2,000			-2,000	None
				-2,222	0		-2,222
