

Decision taken

Made by an Executive Member or Chief Officer

MANCHESTER
CITY COUNCIL

Notice of Decision Made

Decision maker	City Treasurer
Date of decision	22 August 2019
What is the decision?	To give Capital Expenditure approval to the Velodrome Capital project £530,000
Reasons for the decision (but excluding any exempt or confidential information)	<p>Capital expenditure approval for the purpose of capital spend on the feasibility of essential priority works to ensure continuity of services delivery and works required to ensure that the venue meets the technical compliance for the programme of UCI accredited events, to be scheduled and secured over the next 10 years. The work will include invasive surveys, undertake feasibility works and develop scheme proposals up to RIBA stage 2. This will enable a detailed scope of works, concept layouts, specialist input and costs to be developed thus testing the viability of the scheme.</p> <p>The output of this project is that we would also expect to see a far more efficient building in terms of energy use as we propose to implement a range of measures including but not limited to replacing all existing lighting with LED, installing solar PV array on the roof of the BMX track, replacing the boilers with more efficient low carbon system and insulating the pipework.</p>
Alternatives considered and rejected	None
Interests Declared	None
