

Appendix 2

Snapshot of performance bulletin dashboard available through Google Sites

ANCOATS & BESWICK

You can now download a printable snapshot of this site by clicking on the icon to the right:

This site has been created to deliver a user-friendly and easily-accessible source of information on key Highways performance metrics in the **Ancoats & Beswick** ward.

The data presented here is intended to provide an overview of Highways activity in the ward, by detailing **completed** work orders, and summarising CRM activity and parking notices issued, as well as listing major schemes scheduled to take place in the ward.

This site draws on **historical data from a rolling 12-month period** and should not be confused with the Members Map Browser, which is linked directly to CRM and displays real-time data.

The data will be refreshed on a **quarterly** basis with the latest available performance data.

Alternatively, use the links in the table of contents to the left to jump directly to a specific section.

Headlines

[Back to Contents](#)

- From **July 2018 to June 2019** a total of **399** work orders were completed in the ward to repair highways defects.
- From this total, **278** work orders were to repair potholes in the carriageway, **198** were repairs to footway defects and **7115** were other defect types
- In the same period **408** reports of highways defects were logged on CRM by members of the public, of which **259** were reports of potholes (63%)
- A total of **6875** penalty charge notices were issued for parking offences in the ward.

Completed Works

[Back to Contents](#)

The map to the right gives an overview of all **completed** work orders in the ward over the last 12 months.

Launching the map in full-screen mode (by clicking at the top right-hand corner) will allow you to choose the type of highways defect grouping to display, i.e. Carriageway Defects, Footway Defects or Other Defects.

Clicking on any individual icon will also bring up a panel with complete details of what work was conducted and when it took place.
