Appendix Three: Basis of Audit Assessment

Level of	Description	CIII	
Assurance	Description		
The level of assurance is an auditor judgement applied using the following criteria			
Substantial	Sound system of governance, risk management and control. Issues noted do not put the overall strategy / service / system / process objectives at risk. Recommendations will be moderate or minor.		
Reasonable	Areas for improvement in the system of governance and control, which may put the strategy / service / system / process objectives at risk. Recommendations will be moderate or a small number of significant priority.		
Limited	Significant areas for improvement in important aspects of the systems of governance and control, which put the strategy / service / system / process objectives at risk. Recommendations will be significant and relate to key risks.		
No	An absence of effective governance and control is leaving the strategy / service / system / process open to major risk, abuse or error. Critical priority or a number of significant priority actions.		
Priority Assessment Rationale			
	ned to recommendations is otential risk in terms of impa		pplied using an
Critica	Significant	Moderate	Minor
Actions < 3 mont	hs Actions < 6 months	Actions < 12 months	Management discretion
